CURSUS
LA COLLECTION QUI VOUS RÉUSSIT

Grandir, travailler, vieillir, choisir sa sexualité, vivre des relations amoureuses, construire sa famille, pratiquer des loisirs, éduquer des enfants : le genre affecte les principaux moments traversés par un-e individu-e au cours de sa vie.

L'ouvrage révèle comment ces différences sexuées sont construites, légitimées et transformées dans les sociétés contemporaines. Il décrit également les principales instances de socialisation qui participent à les produire : école, pairs, familles, médias... Il donne enfin à voir les transgressions à l'œuvre dans nos sociétés ainsi que les éventuelles transformations sociales qu'elles annoncent.

Enquête après enquête, apparaissent ainsi les modalités précises de production et de transformation des différences sexuées. Tout en restituant les grands débats et discussions autour du concept de genre, l'ouvrage permet à chacun et à chacune de mieux « voir » le genre en train de se faire dans son expérience quotidienne.

MARIE BUSCATTO est professeure de sociologie à l'université Paris 1 Panthéon-Sorbonne et chercheuse à l'IDHE.S (Paris 1-CNRS).

Sociologies Du Genre:

Sociologie des rapports de sexe Marie-Blanche Tahon, 2004 Trop souvent encore les rapports de sexe sont considérés comme un sous champ particulier de la sociologie alors qu'ils traversent l'ensemble de la discipline puisqu'ils interviennent dans tous les domaines de la société. Afin de l'établir, il ne suffit plus de se tenir à la notion de rapports sociaux de sexe qui le plus généralement est utilisée pour faire apparaître l'asymétrie entre les sexes. L'gard du travail incluant le travail domestique. Le débat autour de la parité politique dont la France n'a pas le monopole a imposé la réflexion sur les rapports politiques de sexe. Cette réflexion ne peut être déliée de la prise en considération de la révolution qui s'est produite dans les rapports entre les sexes depuis un trentaine d'années d'or avant avec la reconnaissance par la loi et par la société du droit des femmes contrôler elles-mêmes leur fécondité. Elles ne sont plus marquées par les déterminations de leur sexe, elles intègrent la catégorie de l'individu abstrait. Il devient alors visible que le peuple est composé de deux catégories sexuelles instituées par le droit civil. Aussi la notion de sexe est-elle plus utile à l'analyse que celle de genre. À partir du moment où il est formellement admis que chaque femme comme chaque homme peut prétendre à son corps, les rapports entre les sexes empruntent le registre du différent plutôt que celui de la différence. Les femmes ne sont plus victimes, elles sont plaidantes, elles instruisent le procès de la démocratie moderne qui les a tenus à distance du principe. Tous les hommes naissent libres et égaux en droits. Publi en français.

Surfing, Sex, Gender and Sexualities Lisa Hunter, 2018-04-27 Sex, gender and sexuality have played an important role in shaping the culture of surfing and are central themes in the study of sport and movement cultures. Rooted in a rich precolonial history, surfing has undergone a modern transformation shaped by visual culture, commodification, sportization, mediatization and globalization, arguably all linked to sex, gender and sexuality. Using the physical culture of surfing as its focus, this international collection discusses the complex relationships between surfing, sex, gender and sexuality. This book crosses new theoretical, empirical and methodological boundaries by exploring themes and issues such as indigenous histories, exploitation, the marginalized, race, ethnicity, disability, counter cultures, transgressions and queering. Offering original insights into surfing's symbolism, postcolonialism, patriocolonial whiteness and heteronormativity, its chapters are connected by a collective aspiration to document sex, gender and sexuality as they

are shaped by surfing and importantly as they re shape the many possibly previously unknown worlds of surfing Surfing Sex Genders and Sexualities is fascinating reading for anybody with an interest in the sociology of sport or gender and sexuality studies

Clément, Jim Ogg, 2014-10-10 This book traces the history of the baby boomers beginning with an explanation of the cause of the post war baby boom and ending with the contemporary concerns of ageing boomers It shows how the baby boomers challenged traditional family attitudes and adopted new lifestyles in the 1960s and 1970s Drawing on 90 interviews conducted with baby boomers living in London and Paris the book demonstrates how their aspirations for leisure and consumption converged with family responsibilities and obligations It shows how the baby boomers emerged from an authoritative upbringing to challenge some of the traditional assumptions of the family such as marriage and cohabitation The rise of feminism led by the baby boomers is examined together with its impact on family forms and structures The book shows how women s trajectories veered between the two extremes of family and employment swerving between the models of stay at home mother and working woman It demonstrates how new family configurations such as solo parenting and recomposed families were adopted by the baby boomers Today as they enter into retirement the baby boomers remain closely involved in the lives of their children and parents although relationships with elderly parents are maintained primarily through a sense of duty and obligation The book concludes that the baby boomers have both been influenced by and actors to the changes and transformations that have occurred to family life They reconciled and continue to reconcile individualism with family obligations As grandparents often with an ageing parent still alive the baby boomers wish to keep the independence that has been the hallmark of their generation whilst not abandoning family life *Féminismes en traductions*

Cornelia Möser, 2013 *Féminismes en traduction* entreprend une analyse des débats féministes sur le genre en France et en Allemagne Le livre se concentre sur les aspects producteurs des transformations de traduction en suivant les chemins des transferts culturels empruntés par les débats sur le genre En commençant par une analyse et contextualisation des débats l'auteure expose que ce que les participant·es des débats présentent comme théories de genre est intensément influencé par la soi-disant French theory Les parallèles flagrants entre les débats intenses sur le French feminism aux Etats Unis dans les années 1980 et les débats sur le genre mettent en relief la possibilité d'une construction stratégique d'un corps théorique qui interroge ou attaque des ensembles théoriques hégémoniques Or le French feminism qui aux Etats Unis mène la configuration compétitive entre Théorie critique et Théorie postmoderne est déjà le résultat de transferts théoriques qui conduisent par la suite

l'obsession théorique allemande d'un groupe de théoricien français entre 1960 et 1980. Ce qui paraît être antagonique ici a donc connu une période d'interrelation intense auparavant. La traduction dans ce sens doit être comprise comme facteur central d'un mode de production de savoir mondialisé. Les débats sur le genre sont étroitement liés aux espoirs d'améliorer l'institutionnalisation timide de la recherche féministe en France et en Allemagne. Cela dit, la science féministe a entrepris d'écrire l'histoire de sa pensée. L'auteure met en relief les dangers, notamment théoriques, de ce projet en discutant les récits les plus fréquents.

Masculinities in Contemporary Africa Egodi Uchendu, 2008. Although gender and non gender scholars have studied men such an academic exercise requires a critical and focused study of masculine subjects in particular social contexts which is what this book attempts to do. This empirically rich collection of essays the seventh of the CODESRIA Gender Series deals with critical examinations of various shades and ramifications of Africa's masculinities and what these portend for the peoples of Africa and for gender relations in the continent. So much has changed in terms of notions and expressions of masculinities in Africa since ancient times but many aspects of contemporary masculinities were fashioned during and since the colonial period. The papers in this volume were initially discussed at the 2005 month long CODESRIA Gender Institute in Dakar. The contributors are gender scholars drawn from various disciplines in the wide fields of the humanities and the social sciences with research interests in the critical study of men and masculinities in Africa. The CODESRIA Gender Series aims at keeping alive and nourishing the African social science knowledge base with insightful research and debates that challenge conventional wisdom structures and ideologies that are narrowly informed by caricatures of gender realities. The series strives to showcase the best in African gender research and provide a platform for emerging new talents to flower.

Nouveau manuel de sociologie François de Singly, Christophe Giraud, Olivier Martin, 2013-09-04. Comment faire de la sociologie. Comment réaliser une analyse sociologique d'un fait de société à partir de terrains qui leur sont familiers, une vingtaine de sociologues expérimentés montrent comment ils font de la sociologie. En partant d'expériences ordinaires de la vie, je joue au foot, je deviens ingénieure, je lis des BD, je sers des cours, ils reviennent la manière dont ces expériences peuvent faire l'objet d'analyses sociologiques. Dix-sept exemples variés permettent de se familiariser avec les tapes du raisonnement sociologique illustrant les trois grandes variables sociologiques : sexe, genre et position sociale. Ils indiquent comment articuler questionnement, concepts et enquête de terrain. Rompant avec une approche académique et abstraite, ce manuel dont il s'agit ici de la deuxième édition enrichie de deux chapitres inédits propose une nouvelle manière d'apprendre à faire de la sociologie. Avec lui, les étudiants et les lecteurs curieux disposeront de tous les outils utiles à l'apprentissage de la démarche sociologique.

What are the relations between sociology and the different religions Christianity with its various branches Judaism Islam Oriental religions sects and New Religious Movements That is the question which this work conceived on the occasion of the XXVth Conference of the International Society for the Sociology of Religion Soci t Internationale de Sociologie des Religions SISR wishes to clarify The book retraces the varied and troubled history of these relations and also reveals how in opening up its research to other religions besides the Christian sociology is forced to redefine the very object of its field of study What is the religious This question which until recently was considered impertinent informs this book throughout If confronts the necessity of rethinking theories and methodological approaches which constructed in the context of 19th and early 20th century Western Europe prove to be rather inadequate for encompassing contemporary religious phenomena and religious manifestations in other contexts To these new theoretical and methodological demands is added for the sociologist a deontological imperative which takes on all the more importance today as the religious provokes passionate social debate

Minds of Our Own Wendy Robbins, 2008-05-30 This book of personal essays by over forty women and men who founded women s studies in Canada and Qu bec explores feminist activism on campus in the pivotal decade of 1966-76 The essays document the emergence of women s studies as a new way of understanding women men and society and they challenge some current preconceptions about second wave feminist academics The contributors explain how the intellectual and political revolution begun by small groups of academics often young untenured women at universities across Canada contributed to social progress and profoundly affected the way we think speak behave understand equality and conceptualize the academy and an academic career A contextualizing essay documents the social economic political and educational climate of the time and a concluding chapter highlights the essays recurring themes and assesses the intellectual and social transformation that their authors helped set in motion The essays document the appalling sexism and racism some women encounter in seeking admission to doctoral studies in hiring in pay and in establishing the legitimacy of feminist perspectives in the academy They reveal sources of resistance too not only from colleagues and administrators but from family members

and from within the self In so doing they provide inspiring examples of sisterly support and lifelong friendship *Women in Jazz* Marie Buscatto, 2021-12-30 *Women in Jazz Musicality Femininity Marginalization* examines the invisible discrimination against female musicians in the French jazz world and the ways in which women thrive as professionals despite such conditions The author shines a light on the paradox for women in jazz to express oneself in a feminine way is to be denigrated for it yet to behave in a masculine manner is to be devalued for a lack of femininity This masculine world ensures it is more difficult for women to be recognized as jazz musicians than it is for men even when musicians critics and audiences are ideologically opposed to discrimination Female singers are confined by the feminine stereotypes of their profession while female instrumentalists must comport themselves into traditionally masculine roles The author explores the academic and professional socializations of these musicians the musical choice they make and how they are perceived by jazz professionals as a result First published in French by CNRS Editions in 2007 and later reissued in paperback in 2018 with the author's postscript that nothing much has changed *Women in Jazz Musicality Femininity Marginalization* expands the conversation beyond the French border identifying female jazz musicians as a discriminated minority all around the world
