### **Sociology 3rd Edition A Canadian Perspective:**

**Aboriginal Voices and the Politics of Representation in Canadian Introductory Sociology Textbooks** John Steckley, 2003 The philosophical underpinnings of this textbook make it a most interesting read for scholars of Aboriginal Studies the social sciences humanities and cultural studies and humanistic curriculum development John Steckley's familiarity with and respect for the epistemology of the Huron Mohawk and Ojibwa peoples enlightens and enables his research In this book he provides a critical framework for assessing Aboriginal content in introductory sociology textbooks He defines what is missing from the seventy seven texts included in his study of the manifestation of cultural hegemony in Canadian sociology textbooks This critique is suitable for students and professors of sociology as Dr Steckley addresses the impact of the ellipses from the textbooks they have traditionally used **Marginality and Condemnation, 3rd Edition** Carolyn Brooks, Bernard Schissel, 2021-12-13T00:00:00Z Includes test bank and PowerPoint slides for professors who have adopted the text in their course Contact examrequest@fernpub.ca for more information This well received criminology textbook now in its third edition argues that crime must be understood as both a social and a political phenomenon Using this lens Marginality and Condemnation contends that what is defined as criminal how we respond to crime and why individuals behave in anti social ways are often the result of individual and systemic social inequalities and disparities in power Beginning with an overview of criminological discourse mainstream approaches and new directions in criminological theory the book is then divided into sections based on key social inequalities of class gender race and age each of which begins with an outline of the general issues for understanding crime and an introduction that guides readers through the empirical chapters that follow The studies provide insights into general issues in criminology ranging from the historical and current nature of crime and criminal justice to the various responses to criminality Readers are encouraged and challenged to understand crime and justice through concrete analyses rather than abstract argumentation In addition to a new introductory chapter that confronts how we define crime measure crime and understand and use criminology in this millennium the third edition provides new chapters examining crime in relation to the environment terrorism masculinity children and youth and Aboriginal gangs and the legacy of colonialism **Locating Law, 3rd Edition** Elizabeth Comack, 2020-05-27T00:00:00Z Praise for the second edition This book is the best available for teaching the role of law in society and making sense of how it operates within the inter connections of race class and gender dynamics often perpetuating oppression Locating Law is essential for undergraduate students in justice sociology and criminology Margot Hurlbert University of Regina Students regularly tell me that Locating Law is their favourite book out of the selections for the Law and Society course The case studies are sufficiently different from one another that the students deepen their general knowledge and they appreciate the fact that the chapters are written in a style they can understand Jennifer Jarman Lakehead University A primary concern within the study of law has been to understand the law society relation Underlying

this concern is the belief that law has a distinctly social basis it both shapes and is shaped by the society in which it operates This book explores the law society relation by locating law within the nexus of race class gender sexuality relations in society In addition to updating the material in the theoretical and substantive chapters this third edition of *Locating Law* includes three new contributions sentencing law and Aboriginal peoples corporations and the law and obscenity and indecency legislation The analyses offered in the book are sure to generate discussion and debate and in the process enhance our understanding of law s location *Dying and Death in Canada, Fourth Edition* Herbert C. Northcott, Donna M.

Wilson, 2021-11-01 *Dying and Death in Canada* provides a comprehensive up to date examination of dying death and bereavement from a Canadian perspective The fourth edition covers current issues and recent developments in the field such as the implementation of Medical Assistance in Dying MAID and the implications of the COVID 19 pandemic New topics include death doula death tourism psychogenic death bonds between the living and the dead mass death events and cultural diversity sensitivity and competence This edition combines current research and language used to destigmatize conversations surrounding suicide while new case studies offer personal accounts from doctors nurses and family members of the deceased Exploring the significance of end of life experiences *Dying and Death in Canada* shows that how we live influences how we die and the society and culture in which we live has a profound effect on how we behave when confronted with dying and death **About Canada: Health and Illness, 3rd Edition** Dennis Raphael, 2024-05-02T00:00:00Z Living a

long healthy life is one obvious goal of pretty much all of us We are told over and over to change our lifestyles and accept that if we become ill we have likely brought it on ourselves Yet hundreds of studies over the past four decades tell the real story the living and working conditions we experience every day play a determining role in our health How income and wealth housing education and adequate food are distributed whether or not we are employed and the working conditions we experience not medical treatments nor so called wellness lifestyles determine whether we stay healthy or become ill These living and working conditions reflect the social inequalities that are associated with social class gender race and other social locations in Canadian society The third edition of *Health and Illness* shows how inequitable distribution of the social determinants of health are determined by public policy decisions Dennis Raphael updates information that connects health and illness to the worsening levels of inequality in Canada the rich are getting richer and the rest of us are getting sick This edition also includes a chapter on the social determinants of who got sick and died from COVID 19 The experiences during the COVID 19 pandemic make the clear case that we need to restructure work and living conditions through public policy that more equitably distributes economic resources It is only through such actions that we will be able to promote the health of Canadians and prevent illness in an effective manner *A Concise Introduction to Mental Health in Canada, Third Edition*
