**Women's Rights and Social Change** Leslie Armstrong, 2018-11-23 Women's rights are the rights and entitlements claimed for women and girls worldwide and formed the basis for the women's rights movement in the nineteenth century and feminist movement during the 20th century In some countries these rights are institutionalized or supported by law local custom and behavior whereas in others they are ignored and suppressed They differ from broader notions of human rights through claims of an inherent historical and traditional bias against the exercise of rights by women and girls in favor of men and boys Women's Rights and Social Change focuses attention on the way in which women from a number of traditions have been able to bring about change and the manner in which rights have either facilitated or inhibited women's participation in the process of change In the face of injustice people band together to work for change and through their influence what was once unthinkable becomes common This book traces the history of the women's rights movement including the key players watershed moments and legislative battles that have driven social change This book should be of interest to all those interested in gender development and women empowerment and researchers and students

*Gender Development & Globalization* Terry L Blackwell, 2018-06-18 Gender Development and Globalization is the leading primer on global feminist economics and development Gender is a development issue because social considerations are not easily incorporated into institutions such as policies regulations markets and organizations This process is often referred to as the mainstreaming of gender in development institutions Women are often in a disadvantaged position in terms of access to assets services information and formal decision making status Gender equality is considered a critical element in achieving Decent Work for All Women and Men in order to effect social and institutional change that leads to sustainable development with equity and growth Gender equality refers to equal rights responsibilities and opportunities that all persons should enjoy regardless of whether one is born male or female Gender developmental scientists are concerned with age related changes in gender typing and more broadly with many issues about the emergence and patterning of gendered behaviors and thinking

Description of these changes is vitally important as it informs theoretical approaches to gender development. Using a broad lens on age related changes provides important information describing how development occurs but shorter time frames are also useful for identifying processes that may underlie developmental patterns. Gender has been increasingly acknowledged as a critical variable in analysis and development planning. Gender is an expression of power in social relationship between men and women. The book will be very useful to academicians, researchers, planners, students, NGOs, civil societies and all those who are interested in women studies in general and gender issues in contexts in particular.

***Social Exclusion and Social Inclusion*** Ka'ron Benson, 2018-12-16 In the last couple of years there has been a spurt of growing interest in and awareness about questions of social exclusion and inclusion. While the nature of exclusion in India has centered around the caste system, other disadvantaged groups such as tribal women and poor have also suffered from similar disabilities. Their politics of exclusion and inclusion, censure and celebration show that they wish to be a part of the so called mainstream academic discourse yet cannot be. The objective of this book is to discuss about social exclusion arising out of institutions of caste and gender and the inclusive policies designed for them. This book makes a comprehensive analysis on the thematic issues identified for this seminar within the frame work of human rights education. The recommendations made through this book are expected to influence the policy of inclusive growth within the broad frame work of human rights education. This book is expected to fulfill the teaching, research and extension needs of academics, research scholars, students pursuing subject like sociology, anthropology, social work, history, economics, political science, rural development, women studies, futurology, public administration etc.
