Advanced Surveying Satheesh Gopi,Gopi,2007 Public Works Manual ,1993 **VAST 2001** ,2001 Grounding the Past Alexander Geurds,2007 Grounding the Past addresses archaeological field praxis and its role in the political present of Santiago Tilantongo and Santiago Apoala two communities in the Mixteca Alta region of Oaxaca Mexico Efforts to involve local stakeholder communities in archaeology have become an important issue worldwide In this study Alexander Geurds argues that projects of participatory archaeology many of which go under the heading of community archaeology cannot dispense with reflexive analysis of field praxis if they are to avoid idealized and thus untenable narratives of harmonious local collaboration Past and present archaeological praxis often carries negative connotations in the Mixteca Alta because archaeological projects have failed to recognize conflicting interests and issues of representation of local and non local parties Geurds reviews the constitutive elements of their partnerships such as official meetings public presentations and conferences where the involved local and non local parties produce conflicting agendas by creating and transforming power relations He identifies and analyzes the influences attendant on participatory elements through the application of qualitative techniques derived from ethnography and social geography Using Computers in Archaeology Shannon P.
