

Lesson Plan for K.NS.1

Counting and Describing Quantities up to 100

Objectives

- Students will be able to use one-to-one correspondence to count and describe sets of up to 30 objects.
- Students will be able to explain that the number of objects in a set does not change when the objects are rearranged or counted in a different order.
- Students will be able to use various tools, such as five-frames, ten-frames, and number paths, to represent and count by ones up to 100.
- Students will be able to count forward and backward by ones orally within 100.
- Students will be able to state the number before and after a given number within 30 without counting.
- Students will be able to compose and decompose numbers 11-19 into a ten and some ones using objects, drawings, words, or numbers.
- Students will be able to group and count objects by tens up to 100.

Materials

- Counters, cubes, pennies, or other small objects
- Five-frames and ten-frames (printed or drawn on paper)
- Number paths (printed or drawn on paper)
- Number cards (0-100)
- Paper and pencils
- Scissors and glue

Exercises

- **Exercise 1: One-to-One Correspondence and Cardinality**
- Give each student a set of 10-30 objects (e.g., counters, cubes, pennies) and ask them to count how many they have. Have them write the number on a piece of paper and show it to you.
- Have them arrange their objects in different ways, such as in a line, in a circle, in a pile, or in groups. Ask them to count their objects again and write the number on another piece of paper. Have them compare the two numbers and explain if they are the same or different.
- Have them trade their objects with a partner and repeat the process. Ask them to compare their numbers with their partner's and explain if they are the same or different.
- Ask them to describe how they counted their objects and what they noticed. Have them share their strategies and observations with the class.
