Philanthropic Celebrity in the Age of Sensibility Adrian Wesolowski, 2023-08-29 This volume an original combination of biography cultural history and media studies investigates the first moment in history when philanthropy was used as a self standing claim to fame and philanthropists started being considered as a distinct breed of public figures In its search for the cause of this development it examines the way in which public images of early philanthropists in different parts of Europe were shaped in the late eighteenth and early nineteenth centuries The work draws on a comparison between British prison reformer John Howard Alsatian pastor and humanitarian Jean Fr d ric Oberlin and Stanis aw Staszic a key figure of Enlightenment politics in Congress Poland Revealing parallel mechanisms at play in different national contexts it argues that famous philanthropists ushered in a new genre of fame philanthropic celebrity that placed Enlightenment ideals about virtue

within the framework of early celebrity culture The book is primarily aimed at advanced students and scholars of history cultural studies and social sciences especially those interested in the concepts of fame and celebrity and in the origins of modern humanitarianism
