Gender, Development, and Climate Change Rachel Masika, 2002 This book considers the gendered dimensions of climate change It shows how gender analysis has been widely overlooked in debates about climate change and its interactions with poverty and demonstrates its importance for those seeking to understand the impacts of global environmental change on human communities

Responses to Disasters and Climate Change Michele

Companion, Miriam S. Chaiken, 2016-11-30 As the global climate shifts communities are faced with a myriad of mitigation and adaptation challenges These highlight the political cultural economic social and physical vulnerability of social groups communities families and individuals They also foster resilience and creative responses Research in hazard management humanitarian response food security programming and other areas seeks to identify and understand factors that create vulnerability and strategies that enhance resilience at all levels of social organization This book uses case studies from around the globe to demonstrate ways that communities have fostered resilience to mitigate the impacts of climate change

Climate Change, Disaster and Adaptations Azizur Rahman Siddiqui, Avijit Sahay, 2022-02-26 This volume examines how local communities respond and adapt to ecological changes and disasters resulting from climate change The main aim of the book is to understand the range of human responses to ecological change and to contextualise the reasons for adopting any particular adaptive strategy by a community Through the help of specific case studies presented as individual chapters the book aims to find out whether adaptation due to environmental stress is an individual decision and therefore is an isolated phenomenon or if resilience and adaptation are part of the same action paradigm of society as a whole in response to environmental change Of particular interest are the case studies of climate change or disasters that have rendered the site unsuitable for the return of its community at present and thus necessitated the relocation of such communities to new locations The case studies in the book focus on regions in India but cover different parts of the world as well and address

concepts of resilience vulnerability risk adaptation and mitigation The book will be useful for students and researchers in the fields of geography disaster management environmental science and anthropology

Climate Change from a Criminological Perspective Rob White, 2012-06-12 Few would dispute the power of climate change to lead to profoundly destructive weather events At the same time the possibility of climate change as a consequence or even a cause of criminal events is far less recognized As the earth grows warmer issues regarding land use water rights bio security and food production and distribution will continue to have far reaching impact and produce more opportunity for offenses by individuals and groups as well as political and corporate entities In *Climate Change from a Criminological Perspective* a panel of pioneering green criminologists investigates an increasingly complex chain of ecological causes and effects Illegal acts are analyzed as they contribute to environmental decline e g wildlife poaching or result from ecological distress e g survival related theft Regulatory and other interventions are critiqued concepts of environmental harm refined and new research methodologies called for And while individual events described are mainly local the contributors keep the global picture and substantial questions about human rights and social relationships firmly in mind Topics featured include Global warming as corporate crime Climate change and the courts U S and global views Climate change natural disasters and gender inequality The roles and responsibilities of environmental enforcement networks A sociocultural perspective on climate change denial PLUS instructive in depth chapters on criminological aspects of Hurricane Katrina and the Japanese nuclear disaster A volume of considerable timeliness and vision *Climate Change from a Criminological Perspective* will be read and discussed and will inspire action by researchers in criminology criminal justice environmental studies and related disciplines as well as policymakers

Climate Hazards, Disasters, and Gender Ramifications Catarina Kinnvall, Helle Rydstrom, 2019-06-11 This book focuses on the challenges of living with climate disasters in addition to the existing gender inequalities that prevail and define social economic and political conditions Social inequalities have consequences for the everyday lives of women and girls where power relations institutional and socio cultural practices make them disadvantaged in terms of disaster preparedness and experience Chapters in this book unravel how gender and masculinity intersect with age ethnicity sexuality and class in specific contexts around the globe It looks at the various kinds of difficulties for particular groups before during and after disastrous events such as typhoons flooding landslides and earthquakes It explores how issues of gender hierarchies patriarchal structures and masculinity are closely related to gender segregation institutional codes of behaviour and to a denial of environmental crisis This book stresses the need for a gender responsive framework that can provide a more holistic understanding of disasters and climate change A critical feminist perspective uncovers the gendered politics of disaster and climate change This book will be useful for practitioners and researchers working within the areas of Climate Change response Gender Studies Disaster Studies and International Relations

Identifying Emerging Issues in Disaster Risk Reduction, Migration, Climate Change and Sustainable Development Karen

Sudmeier-Rieux,Manuela Fernández,Ivanna M. Penna,Michel Jaboyedoff,J.C. Gaillard,2016-08-29 The goal of this book is to explore disaster risk reduction DRR migration climate change adaptation CCA and sustainable development linkages from a number of different geographical social and natural science angles Well known scientists and practitioners present different perspectives regarding these inter linkages from around the world with theoretical discussions as well as field observations This publication contributes in particular to the discussion on the Sendai Framework for Disaster Risk Reduction SFDRR 2015 2030 and the debate about how to improve DRR including CCA policies and practices taking into account migration processes from a large perspective where both natural and social factors are crucial and mutually alloyed Some authors see the SFDRR as a positive step forward in terms of embracing a multitude of issues others doubting that the agreement will lead to much concrete action toward real action on the ground This book is a timely contribution for researchers students and policy makers in the fields of environment human geography migration disaster and climate change studies who seek a more comprehensive grasp of contemporary development issues **Gender, Climate Change and Livelihoods** Joshua

Eastin,Kendra Dupuy,2021-07-26 This book applies a gendered lens to evaluate the dynamic linkages between climate change and livelihoods in developing countries It examines how climate change affects women and men in distinct ways and what the implications are for earning income and accessing the natural social economic and political resources required to survive and thrive The book s contributing authors analyze the gendered impact of climate change on different types of livelihoods in distinct contexts including urban and rural and in diverse geographic locations including Asia Africa and the Caribbean It focuses on understanding how public policies and power dynamics shape gendered vulnerabilities and impacts how gender influences coping and adaptation mechanisms and how civil society organizations incorporate gender into their climate advocacy strategies **Social Change, Resistance and Social Practices** Richard Alan Dello Buono,David

Fasenfest,2010-01-01 This collection of works by critical sociologists of various nationalities focuses on cutting edge approaches to conflict driven social change By emphasizing the role played by contemporary social movements such as environmentalists migrant organizations world social forum activists and others these studies grapple with diverse forms of organized resistance in the 21st century From homeless peoples displaced by Hurricane Katrina to young Muslim women refusing to shun their veils in French schools the logic of a new generation of protest is deciphered with an eye to learning from as well as informing new social forces demanding progressive change The result is an affirmation of the continuing relevance of critical sociology in analyzing key socialcontradictions in the United States Mexico and beyond P 4 of cover

SADC Gender Protocol 2018 Barometer Morna, Colleen Lowe,Glenwright, Danny,2018-08-20 The SADC Protocol on Gender and Development is the only sub regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol it s updating implementation and

tracking Originally aligned to the Millennium Development Goals that expired in 2015 SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals SDGs Beijing Plus Twenty and the Africa Agenda 2063 in 2016 In July 2017 the Ministers adopted a Monitoring Evaluation and Results Framework MERF that is now the basis of reporting 2018 marks the tenth anniversary of the SADC Gender Protocol and the Barometer Moving with the times the Alliance has expanded the two yardsticks in the Barometer the SADC Gender and Development Index SGDI and the Citizen Score Card CSC The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice choice and control The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region A wealth of data insights and analysis awaits all readers of the Barometer that will also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030

Gender and Land Tenure in the Context of Disaster in Asia Kyoko Kusakabe,Rajendra Shrestha,Veena N.,2015-06-30 This book explores an interdisciplinary field at the intersection of gender and development studies disaster and land tenure policy It is well known that women generally have weaker claims to land But how does that translate to increased vulnerability during disaster Using case studies from Asia this book argues that land tenure is a key factor in mitigating the impact of disasters on women The scale and frequency of disasters have been increasing in recent decades due to human impact on the landscape and climate Unsustainable farming and land management systems have increased environmental risks and social vulnerabilities However around the world the costs of disasters are disproportionately borne by women due largely to their reduced mobility and lack of control over assets In post disaster settings women s vulnerabilities increase due to gendered rescue and rehabilitation practices As such a gendered approach to land rights is critical to disaster preparedness and recovery

Climate Change 2014 - Impacts, Adaptation and Vulnerability: Part A: Global and Sectoral Aspects: Volume 1, Global and Sectoral Aspects Intergovernmental Panel on Climate Change (IPCC),2014-12-29 This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change IPCC will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy

Climate Change and Agricultural Development Udaya Sekhar Nagothu,2016-07-15 Two of the greatest current challenges are climate change and variability and food security Feeding nine billion people by 2050 will require major efforts aimed at climate change adaptation and mitigation One approach to agriculture has recently been captured by the widely adopted term of Climate Smart Agriculture CSA This book not only explains what this entails but also presents practical on the ground studies of practices and innovations in agriculture across a broader spectrum including agroecology and conservation agriculture in less developed countries It is shown that CSA is not a completely new science and a number of its recommended technologies have been used for some time by local farmers

all over the world What is relevant and new is the approach to exploit their adaptation and mitigation potential However a major limitation is the lack of evidence based knowledge that is necessary for policy makers to prepare strategies for adaptation and mitigation This book assembles knowledge of CSA agroecology and conservation agriculture and perspectives from different regions of the world to build resilient food systems The first part analyzes the concept opportunities and challenges and provides a global perspective drawing particularly on studies from Africa and Asia The second part of the book showcases results from various studies linked to soil water and crop management measures from an ongoing program in India as well as experiences from other regions The third section assesses the needs for an enabling policy environment mainstreaming gender and some final recommendations for up scaling and or out scaling innovations Gender and Climate Change Joane Nagel, 2025-08-05 Does gender matter in global climate change This timely and provocative book takes readers on a guided tour of basic climate science then holds up a gender lens to find out what has been overlooked in popular discussion research and policy debates We see that around the world more women than men die in climate related natural disasters the history of science and war are intimately interwoven masculine occupations and preoccupations and conservative men and their interests drive the climate change denial machine We also see that climate policymakers who embrace big science approaches and solutions to climate change are predominantly male with an ideology of perpetual economic growth and an agenda that marginalizes the interests of women and developing economies The book uses vivid case studies to highlight the often surprising gendered impacts of climate changes This new edition is a thorough update that includes revised and new chapters and new material that takes account of the significant advances in climate research environmental and social theory and the many political and social challenges posed in the wake of US elections Covid 19 pandemic and rapidly changing climate and environment The new edition also takes account of important social and cultural movements that resist challenges to women's rights and advocate for gender sexuality and racial justice This book will appeal to students researchers and academicians interested in environmental studies and gender studies It also will be of interest to policymakers activists and others involved with environmental policy and governance Systemic Crises of Global Climate Change Phoebe Godfrey, Denise Torres, 2016-04-14 Sociological literature tends to view the social categories of race class and gender as distinct and has avoided discussing how multiple intersections inform and contribute to experiences of injustice and inequity This limited focus is clearly inadequate Systemic Crises of Global Climate Change is an edited volume of 49 international interdisciplinary contributions addressing global climate change GCC by intentionally engaging with the issues of race gender and class through an intersectional lens The volume challenges and inspires readers to foster new theoretical and practical linkages and think beyond the traditional and oftentimes reductionist environmental science frame by examining issues within their turbulent political cultural and personal landscapes Varied media and writing styles invite students and educators to reflexively engage different yet complementary approaches to GCC analysis and interpretation

mirroring the disparate voices and viewpoints within the field The second volume Emergent Possibilities for Sustainability will take a similar approach but will examine the possibilities for solutions as in the quest for global sustainability This book is a valuable resource for academics researchers and both undergraduate and post graduate students in the areas of Environmental Studies Climate Change Gender Studies and International studies as well as those seeking a more intersectional analysis of GCC

Into the Fire Shelley Pacholok, 2013-01-01 Thoughtfully engaging yet theoretically sophisticated Into the Fire reveals how disasters bring traditional patterns of gender relations to light and often serve as catalysts for social change

Inequality – the unbeatable challenge Medani P. Bhandari, Shvindina Hanna, 2022-09-01 This edited book presents some unexplored issues of economic inequality including case studies of various countries Inequality is a chronic and divisive factor of society Inequality exists as an integral attribute of human development Communities nations and systems are not evolving at the same speed and rate and thus require different resources in different amounts However the distribution of winnings is also uneven due to the multidimensionality of influencing factors When we talk about inequality it is not just inequality of income or wealth it is first inequality in access to priorities and human needs to shelter to clean water air health care and also to appropriate vaccination systems and assistance security systems and safety guarantees for the future Past financial crises and the current pandemic shock has revealed bugs in the system shaking it and changing our perception of the norms We may have no doubts that inequality is an unsolved problem but now we need to find out is it unbeatable There is still lack of knowledge around how inequality has been grounded throughout human civilization why society is stratified and classified economically politically socially and religiously and why the discrimination due to gender sexual orientation country of origin language differences immigration status caste race and ethnicity This book addresses these issues in a holistic way as well as including case studies of various countries It tries to find out why inequality has been unbeatable and what would be the best policies to overcome this challenge
