Publications of the Carol Society Carol Society (New Haven, Conn.),1929 *Handbook of Domestic Ventilation* Rodger Edwards,2006-08-11 A series of studies of homes in England show that around 15% or some 3 million homes suffer problems with damp and mould largely because of poor ventilation The impact on public health and quality of life is substantial The Handbook of Domestic Ventilation is a comprehensive study of the basic science technology and practical application of effective and energy efficient ventilation strategies for dwellings Unlike other books the Handbook concentrates on a domestic context rather than looking solely at commercial applications giving a much needed insight into the requirements of ventilation for the home Basing his conclusions on both theoretical study and practical experience Rodger Edwards demonstrates the clear link between poor ventilation and poor health and tells the reader how to use good quality ventilation as a way of enhancing quality of life and as a health improvement tool New Perspectives in British Cultural History Rosalind Crone,David Gange,Katy Jones,2021-03-04 This book is composed of a selection of papers presented at a conference in Cambridge in December 2005 Cultural history is a relatively new sub discipline Over the past few decades it has become increasingly apparent that a new generation of historians has emerged These scholars have become concerned with research sources and questions traditionally beyond the scope of the discipline of history Indeed recent monographs in history have demonstrated a growing awareness of the cultural imagination in analyses of patterns of change and continuity in the past Such a movement has also encouraged the development of new networks between different disciplines in the Arts and Social Sciences The authors of these chapters come from a wide range of academic backgrounds While all are concerned with crucial issues of the past they represent a substantial variety of disciplines In addition to the historians are those trained and working in literary studies art history design music and science As early career scholars the

research they present is cutting edge these contributions represent the very latest trends in cultural studies and demonstrate the attempts of new researchers to answer the most current and challenging questions that are being proposed in this field
