Aggression in the Sports World Gordon W. Russell, 2008-03-14 They are familiar scenes sports fans turning on each other in acts of violence and mobs of sports fans flooding onto the field or out into the streets Is there something inherent in the competitive sport setting that produces this frequently dangerous behavior Written in an engaging style this volume addresses the question by exploring the wide range of influences at work from a social psychological perspective Topics range from a focus on the personality traits that predispose individuals to act aggressively to a wider concern with who riots why they riot and situations that favor the occurrence of sports riots Research on the equally disturbing phenomenon of crowd panics explores the underlying causes and peculiar behavior of people caught in the panics Aggression is influenced and exacerbated by multiple factors troublemakers who incite others to aggress influence by the media differing cultural backgrounds blind obedience and attempts by individuals to emulate unworthy personal heroes Less obvious factors such as temperature noise and color also exert important effects on interpersonal aggression and drugs such as alcohol and steroids further inflame the possibilities

for violence Russell examines all these factors in his international and interdisciplinary presentation of the best and most recent findings in the study of sports aggression and provides a series of proposals intended to prevent or minimize the severity of riots and panics Additionally he explores the relationship between aggression and what is probably the most revered concept in sports competition Scholars students and sports savvy fans will find this book of interest **USGA Journal and Turf Management** ,1992 **Radio Free Europe Research** ,1982 *Mediation* Alain Lempereur, Jacques Salzer, Aurelien Colson, Michele Pekar, Eugene B. Fútbol in the Park David Trouille, 2021-02-02 You know the scene amateur soccer players battling over the ball spectators cheering from the sidelines vendors selling their wares from carts Over the past half century immigration from Latin America has transformed the public landscape in the United States and numerous communities are witnessing one of the hallmarks of this transformation the emergence of park soccer In Fútbol in the Park David Trouille takes us into the world of Latino soccer players who regularly play in an upscale Los Angeles neighborhood where they are not always welcome Together on the soccer field sharing beers after the games and occasionally exchanging taunts or blows the men build relationships and a sense of who they are Through these engrossing revealing and at times immortalizing activities they forge new identities friendships and job opportunities giving themselves a renewed sense of self worth and community As the United States becomes increasingly polarized over issues of immigration and culture Fútbol in the Park offers a close look at the individual lives and experiences of migrants

Intelligent Agents V: Agents Theories, Architectures, and Languages Jörg Müller, Munindar P. Singh, Anand S. Rao, 2007-04-29 The leading edge of computer science research is notoriously fickle New trends come and go with alarming and unfailing regularity In such a rapidly changing field the fact that research interest in a subject lasts more than a year is worthy of note The fact that after five years interest not only remains but actually continues to grow is highly unusual As 1998 marked the fifth birthday of the International Workshop on Agent Theories Architectures and Languages ATAL it seemed appropriate for the organizers of the original workshop to comment on this remarkable growth and reflect on how the field has developed and matured The first ATAL workshop was co-located with the Eleventh European Conference on Artificial Intelligence ECAI 94 which was held in Amsterdam The fact that we chose an AI conference to co-locate with is telling at that time we expected most researchers with an interest in agents to come from the AI community The workshop which was planned over the summer of 1993 attracted 32 submissions and was attended by 55 people ATAL was the largest workshop at ECAI 94 and the clear enthusiasm on behalf of the community made the decision to hold another ATAL workshop simple

The ATAL 94 proceedings were formally published in January 1995 under the title Intelligent Agents and included an extensive review article a glossary a list of key agent systems and unusually for the proceedings of an academic workshop a full subject index The high scientific and production values embodied by the ATAL 94 proceedings appear to have been recognized by the community and resulted in ATAL proceedings being the most successful sequence of books published in Springer Verlag's Lecture Notes in Artificial Intelligence series

Just Wondering, Jesus Tom Ehrich, 2005-03 What are the questions that are really on the minds of Christians as they try to live out their faith Author Tom Ehrich challenged readers of his weekly newspaper column and his daily e-mail meditations to pose the questions that they would like to ask Jesus from the roadside as blind Bartimaeus did in the gospel He received hundreds of responses not one of them about matters of liturgy church politics or canon law Instead the questions these ordinary Christians longed to ask Jesus were deeper and more basic Will I see my late husband in heaven How can I make my marriage more joyful Will we ever find peace What do you want of me In Just Wondering Jesus Ehrich takes 100 of these questions and answers each in the form of a brief meditation essay and provides a fascinating glimpse of what is truly on people's minds and in their hearts The meditations based on gospel readings are valuable for personal devotion and small group study

Positive Behavior Management in Physical Activity Settings Barry Wayne Lavay, Ronald W. French, Hester Henderson, 2006 Aimed at PE teachers coaches and recreation leaders who want to learn strategies for promoting responsible behaviour in participants this title combines theory with the application of teaching and leadership practices of proven merit in a variety of settings including youth sport programmes schools and leisure facilities
