Social work career involves working with diverse population. Cultural pluralism culture concept is one that emphasizes on the respect for diversity of heritages, lifestyles, values and customs. This paper will focus on my experiences and exposure to individuals from different populations. It is going to enumerate my personal qualities in expressing myself to be sensitive to people with values that are different from mine. Further, the paper will also showcase the manner in which life experiences influence my values, beliefs and feelings with variables such as; Ethnicity (culture, race), spiritual tradition that is different from those of mine like economic status, age, social status and sexual orientation. Lastly, the paper will also describe the ethical dilemma I have experience in the process of decision making and factor that have contributed to the ultimate outcome.

Ghana is a nation that has diverse ethnic groups and communities. Its population of over 24 million people and 70 diverse ethnic groups. As a Ghanaian, the nature of the country which is multicultural has broadened my scope n different people as well as their perceptions, which are different from mine. For example, while working with World Visions Ghana and the Ghana Broadcasting Corporation, I was able to develop ability to use and acquire values, skills and knowledge in ways that make diversity such a competent practice. I more so developed a system of feeling, acting and thinking that opens the door so I can actively seek knowledge, develop values consistent in addressing issues of sensitive nature and integrate new ideas that at times, are uncomfortable. I have also learned to be a true professional by giving up my comfort place, risking to reach out and learn things I do not know.

What is more, I have acquired ability to solve and work out people's problems. Solving the problems of people involves learning how to acquire knowledge in a couple of ways. What is more, it also entails

Critical Thinking and Professional Judgement for Social Work Lynne Rutter, Keith Brown, 2015-09-26. Critical thinking as a process can appear formal and academic, far removed from everyday life where decisions have to be taken quickly in less than ideal conditions. However, now more than ever, it is seen as a vital part of social work and indeed any healthcare and leadership practice within the current agenda for integration and in the post Francis inquiry health care context. This Fourth Edition now reflects this wider arena but also includes new material in response to the continuing review of social work professional standards. It continues to take a pragmatic look at the range of ideas associated with critical thinking, focusing on learning and development for practice. The chapter on professional judgement has been extended to provide a wider discussion on practical reasoning and judgement in relation to developing expertise, while other chapters and reading lists have also been updated and activities revised to enhance learning. The authors continue to emphasise the importance of sound moral judgement based on critical thinking and practical reasoning while also acknowledging the tensions for staff and teams facing complex, uncertain situations and sometimes oppressive workplace cultures. Their hope is that increased and informed attention to your thinking can help nurture wise deliberation and action in such challenging times. The Social

Developing Student Criticality in Higher Education Brenda Johnston, Peter Ford, Rosamond Mitchell, Florence Myles, 2011-03-24

Critical thinking is a major and enduring aspect of higher education and the development of criticality in students has long been a core aim. However, understandings of criticality are conceptually and empirically unclear. The book combines a well-developed conceptual discussion of the nature of criticality appropriate for the twenty-first century, the extent to which it is attainable by arts and social science undergraduates, and the paths by which it is developed during students' higher education experiences. Drawing upon empirical accounts and case studies of teaching and learning in different disciplines, this book critically analyses higher education curriculum and policy documentation to explore higher educational processes encouraging a re-evaluation of practice and educational values and enabling the development of curricula which incorporate systematic attention to the development of student criticality. This book proposes a rounded conceptual vision of criticality in higher education for the twenty-first century.

Evidence Based and Knowledge Based Social Work Inge M. Bryderup, 2008-12-01

Policymakers in welfare democracies throughout the world are raising questions as to whether welfare systems deliver what the public expects and focus attention on increasing costs. Social workers need more evidence and knowledge about an increasing diversity of social work practices. Users of social welfare are increasingly individualized and made responsible for choosing and delivering their own service through contracts, and this makes politicians, social workers, and users more interested in evidence and knowledge about social services, even though these interests are often conflicting. These tendencies might be part of the reasons why the evaluation of social work practice seems to be characterized at present by a variety and diversity of research methods, approaches, and theories.
