Sociologie De La Gendarmerie:

Sociologie de la Gendarmerie, 2013 Sociologie de la gendarmerie François Dieu, 2008-06-01 La gendarmerie est une organisation policière atypique la fois familière et moins connue. À partir de recherches conduites depuis une vingtaine d'années, ce livre propose un certain nombre de données et d'analyses susceptibles d'apporter un éclairage à tous ceux qui s'efforcent de comprendre et d'expliquer les phénomènes gendarmiques.

Sociologie de la sécurité François Dieu, 2021-06-15 Cet ouvrage propose une approche sociologique des questions de sécurité peu présente dans les débats médiatiques et rarement mobilisée par les responsables institutionnels. Il aborde des questions aussi fondamentales que celles de la violence policière, de la gestion démocratique des manifestations de rue, de la police de proximité et du dualisme police gendarmerie, sans oublier la contribution de ces autres acteurs que sont l'administration pénitentiaire et la sécurité privée. L'insécurité qui est une préoccupation majeure interpelle le sociologue notamment au niveau des réponses apportées selon les territoires, avec leurs résultats insuffisamment évalués. Voici quelques-unes des thématiques sur lesquelles cet ouvrage apporte un éclairage destiné à tous ceux, chercheurs et professionnels, mais aussi citoyens et observateurs, qui s'efforcent de comprendre les problèmes de délinquance et les politiques de sécurité dans la France d'aujourd'hui.

Études sur la gendarmerie François Dieu, 2021-01-21 Cet ouvrage rassemble une dizaine d'études sur la gendarmerie réalisées au cours des quinze dernières années. Elles fournissent une somme d'analyses sur la problématique de la recherche sur la gendarmerie, mais aussi sur les évolutions de cette institution, aussi familière que moins connue. Elles proposent un regard sociologique forcément engagé et distancié sur certaines formes majeures qu'a connues la gendarmerie sur le plan de son organisation, de ses ressources humaines et de son dispositif de formation. Elles posent la question de l'utilité sociale et de la prise en compte de cette approche souvent dérangeante par les acteurs institutionnels. Ces études fournissent un éclairage saisissant à tous ceux, chercheurs, professionnels, citoyens et observateurs, qui s'intéressent à la gendarmerie française.

Bibliographie Internationale de Sociologie 1980, 1982 Each Bibliography lists and annotates the most important works published during the year. They are arranged by topic and indexed by author, subject and geographic location.

Sociologie. Théorie et analyse René Llored, 2022-12-27 Ce manuel de sociologie présente les théories, les concepts et les méthodes empiriques que la discipline a forgés au cours de son histoire. Il s'attache également à montrer concrètement comment mis à l'épreuve des faits, ils ont contribué à l'explication des phénomènes sociaux et à la compréhension des conduites individuelles. Cette troisième édition augmente et actualise toutes les données et présente les développements les plus récents de la recherche sociologique. Elle comprend également un nouveau chapitre consacré à la sociologie des problèmes environnementaux. L'ouvrage s'adresse aux étudiants de licence et de master des facultés de sciences humaines et sociales des Instituts d'Études Politiques et à ceux de classes préparatoires aux grandes écoles.

Rural Policing and Policing the Rural Rob I. Mawby, 2016-04-08 Policing reveals much about rural society It refers to the way that the police the public and other agencies regulate themselves and each other according to the dominant ideals of society This can be formally through the ever growing spectrum of policing partnerships in neo liberal countries or informally through the performance and enforcement of moral codes and values This book draws on international interdisciplinary perspectives to examine the range and consequences of policing across different rural localities Rural Policing and Policing the Rural is organised into two sections the first examines who is policing rural areas while the second examines the nature of rural policing by considering on the one hand the policing of rural space and on the other how ideas of rurality are regulated In doing so this book provides a survey of rural policing that will be valuable to academics students policy makers and those policing rural places

French Criminal Justice Jacqueline Hodgson, 2005-11-08 Basing much of its analysis upon the first systematic empirical study of the French pre-trial process this monograph breaks new ground in the field of comparative criminal justice Moving away from idealised accounts of judicially supervised investigations it provides a better understanding of the ways in which an inquisitorially rooted criminal process

operates in practice and the factors that influence and constrain its development and functioning The structure and operation of French criminal justice is set within a broad range of contexts of political occupational and legal cultures from the French Republican tradition of state centred models of authority across the growing influence of the ECHR to the local conditions which determine the ways in which individual discretion is exercised The French model of investigative supervision and accountability is contrasted with more adversarial procedures and in particular the different ways in which the reliability of evidence is guaranteed and the interests of the accused protected Systematic observation of the daily working practices of police gendarmes prosecutors and juges d'instruction across a number of sites and time periods provides a unique and detailed account of the ways in which the French criminal process operates in practice The understandings and insights generated from this data are then set within a wider legal and political analysis which considers issues such as the influence and interference of the State within matters of justice a comparative analysis of the judicial and defence functions and the extent to which ECHR fair trial guarantees are able to produce legal and ideological change within a process which depends upon a central and judicially supervised investigating authority An informed knowledge of other European criminal procedures is increasingly essential for those working within UK as well as comparative criminal justice if there is to be a proper engagement with and evaluation of measures such as the EUs proposed Council Framework Decision on Certain Procedural Rights in Criminal Proceedings throughout the European Union as well as recent legislative reform in England and Wales that seeks to adjust the pre trial roles of police and prosecutor in significant ways This book will be essential reading for teachers researchers students and policy makers working in the areas of criminal justice in the UK and across Europe in comparative criminal justice criminology as well as in French and European studies *Le mouvement*

Le Suicide: Etude de Sociologie Émile Durkheim, 2020-06-17 Dans *Le Suicide Etude de Sociologie* mile Durkheim aborde le ph nom ne du suicide sous un angle sociologique novateur rejetant les explications individuelles au profit d une analyse des facteurs sociaux L ouvrage est structur autour de l id e centrale que les taux de suicide varient selon les contextes sociaux et

culturels illustrant ainsi l'impact des normes collectives sur les individus Durkheim utilise un style analytique et rigoureux combinant des données statistiques avec une réflexion philosophique pour mettre en lumière quatre types de suicide : égoïste, altruiste, anémique et fataliste. Ce travail est profondément ancré dans le contexte académique de la fin du XIX^e siècle où la sociologie commence à s'affirmer comme une discipline scientifique indépendante. Durkheim considère comme l'un des pères fondateurs de la sociologie à être influencé par les bouleversements sociaux de son époque, notamment la transition vers la modernité et ses conséquences sur la cohésion sociale. Sa formation en philosophie et son intérêt pour les questions de moralité et de communauté l'ont poussé à étudier comment les structures sociales influencent le comportement humain. *Le Suicide* s'inscrit dans sa quête de comprendre les rapports entre l'individu et la société et représente un jalon dans l'établissement de la sociologie comme science empirique. Cet ouvrage est fortement recommandé pour toute personne désireuse de comprendre les interactions complexes entre l'individu et le collectif. Essentiel pour les sociologues et les amateurs de sciences humaines, *Le Suicide* offre à ses lecteurs une perspective éclairante sur les impacts des contextes sociaux sur les comportements personnels. La profondeur de son analyse et sa méthodologie rigoureuse font de ce livre une référence incontournable dans l'étude des comportements suicidaires.
