Dominowski,2014-04-08 This practical guide is designed to help college teachers plan their undergraduate courses and deliver high quality instruction The book s theme is that teaching is a creative decision making idea testing enterprise whose purpose is to facilitate student learning in all of its facets Its goal is to help instructors understand the multiple kinds of learning taking place in their courses so that they can select devise evaluate and modify teaching techniques to improve their effectiveness Based on research on human learning memory thinking and problem solving as well as studies of teaching and less formal reports of teaching practices the book offers concrete advice about all aspects of college teaching Part I is devoted to course planning It outlines the many decisions

instructors face in defining a course as their own and discusses the larger issues that shape a course and constrain some specific choices. Selecting course content, choosing learning goals, deciding how to pace a course, and scheduling tests are some of these issues. A workable timetable for preparing a course is included. Part II is a mini course on human learning, memory, and thinking. It provides the conceptual foundation for making teaching decisions for selecting instructional strategies and especially for inventing new techniques that might particularly fit a specific course. Part III deals with the nitty gritty of college teaching, including how to choose a textbook, lecturing, and conducting classroom discussions, types and purposes of writing assignments, and how to structure and evaluate them, dealing with plagiarism, strengths and weaknesses of different types of tests, the relation of tests to learning goals, and guidelines for constructing good tests and grading systems. Part IV addresses professional and ethical issues of importance and consequence to instructors. New college instructors, more experienced faculty who would like to reflect on their teaching practices, and consider making some changes, and teaching assistants will all find this book relevant and useful.

The Pocket Instructor: Writing Amanda Irwin Wilkins, Keith Shaw, 2024-06-11. Fifty easy to deploy active learning exercises for teaching academic writing in any field. The Pocket Instructor Writing offers fifty practical exercises for teaching students the core elements of successful academic writing. The exercises created by faculty from a broad range of disciplines and institutions are organized along the arc of a writing project, from brainstorming and asking analytical questions to drafting, revising, and sharing work with audiences outside traditional academia. They present students with engaging intellectual challenges to work through together, arriving at generalizable lessons that transfer well across the humanities, social sciences, and natural sciences. Students will learn to articulate a thoughtful question, develop a persuasive thesis, analyze complex evidence, and engage responsibly with sources. The Pocket Instructor Writing offers teachers concrete ideas about how to cultivate habits of radical revision and create a classroom community with an ethos of trust where students learn to give meaningful feedback. Written for both novice and veteran instructors, this essential guide will benefit faculty in any field who hope to improve student writing in their courses.

Key features: Exercises by experienced faculty from a wide range of disciplines and institutions; Step by step instructions with instructor insights for each exercise; A Writing Lexicon for terms such as motive, thesis, analysis, evidence, and method; Guidance for avoiding plagiarism; Index and cross references to aid in course planning.
