

PLANETS AND SOLAR SYSTEM

Time allotment: 2x45minutes
Level: Kindergarten

LEARNING OBJECTIVES

Learners will be able to identify and differentiate each name of planets

WARM-UP

- Greetings
- Pray together
- The "Hello song"
- Attendance checking
- Introduction story about material

TARGET VOCABULARY

Mercury, Venus, Mars, Earth, Saturn, Jupiter, Uranus, Neptune

LEARNING MEDIA

Laptop, LCD projector, art supplies, quizlet, flashcards

MAIN ACTIVITY

- Introduce the name of planets in solar system
- Music video about solar system
- A map about planets' position
- Worksheet
- Quizlet

WRAP-UP

- Homework
- Pray together
- The "Good-bye song"

Solar System Planets Lesson Plans

R Sanford

Solar System Planets Lesson Plans:

The Solar System, 1992 *Level Up Your Lesson Plans* Teresa K. Kwant, 2025-05-13 Level Up Your Lesson Plans Ignite the Joy of Learning with Fun and Educational Materials Tired of spending hours on lesson plans Discover strategies to streamline your planning process and maximize student engagement Access exclusive templates tools and resources designed to help you create effective lessons that align with learning standards Save time reduce stress and elevate your teaching game In Level Up Your Lesson Plans Ignite the Joy of Learning with Fun and Educational Materials teacher Teresa Kwant delivers an exciting and practical instruction book for teachers interested in adding fun into their lesson plans without sacrificing educational strategies The book walks you through how to transform your teaching materials and lessons into interactive collaborative and enjoyable learning experiences for both the teacher and students Kwant draws on personal and professional experiences to give actionable steps you can implement immediately You ll also find Tips for aligning your lessons with standards to make them both fun and engaging Strategies for building your own instructional plans for daily success with student learning Techniques to develop your own lessons plans efficiently and with high engagement Perfect for new and veteran classroom teachers looking for student engagement tips Level Up Your Lesson Plans is a hands on playbook for planning smarter so you teach better This book is the hands on creative teaching playbook the education community has been waiting for

Resources for Teaching Elementary School Science National Science Resources Center of the National Academy of Sciences and the Smithsonian Institution, 1996-04-28 What activities might a teacher use to help children explore the life cycle of butterflies What does a science teacher need to conduct a leaf safari for students Where can children safely enjoy hands on experience with life in an estuary Selecting resources to teach elementary school science can be confusing and difficult but few decisions have greater impact on the effectiveness of science teaching Educators will find a wealth of information and expert guidance to meet this need in Resources for Teaching Elementary School Science A completely revised edition of the best selling resource guide Science for Children Resources for Teachers this new book is an annotated guide to hands on inquiry centered curriculum materials and sources of help in teaching science from kindergarten through sixth grade Companion volumes for middle and high school are planned The guide annotates about 350 curriculum packages describing the activities involved and what students learn Each annotation lists recommended grade levels accompanying materials and kits or suggested equipment and ordering information These 400 entries were reviewed by both educators and scientists to ensure that they are accurate and current and offer students the opportunity to Ask questions and find their own answers Experiment productively Develop patience persistence and confidence in their own ability to solve real problems The entries in the curriculum section are grouped by scientific area Life Science Earth Science Physical Science and Multidisciplinary and Applied Science and by type core materials supplementary materials and science activity books Additionally a section of references for teachers provides annotated listings of books about science and

teaching directories and guides to science trade books and magazines that will help teachers enhance their students science education Resources for Teaching Elementary School Science also lists by region and state about 600 science centers museums and zoos where teachers can take students for interactive science experiences Annotations highlight almost 300 facilities that make significant efforts to help teachers Another section describes more than 100 organizations from which teachers can obtain more resources And a section on publishers and suppliers give names and addresses of sources for materials The guide will be invaluable to teachers principals administrators teacher trainers science curriculum specialists and advocates of hands on science teaching and it will be of interest to parent teacher organizations and parents

Handbook of Research on Family Literacy Practices and Home-School Connections Fox, Kathy R.,Szech, Laura E.,2022-06-24 Research has shown that families and schools that partner together improve literacy outcomes for their students Family literacy includes homework and shared book reading but goes beyond these school to home activities to encompass family generated practices These literacies include family connections around activities such as cooking play religion social and community groups Further study on the importance of the partnership between the home and school is required to implement best practices and provide students with the best possible education The Handbook of Research on Family Literacy Practices and Home School Connections seeks to understand the connections made and new information learned during the COVID 19 pandemic surrounding family literacy and shares updated practices and new perspectives on what it means to partner with families and embrace diverse family literacies in this new world The book also provides teachers perspectives on how future relationships between the school and home can be shaped through both narrative and research based chapters Covering key topics such as parenting homework and social distancing this major reference work is ideal for administrators school faculty academicians scholars practitioners instructors and students

99 Jumpstarts for Kids' Science Research Peggy Whitley,Susan Williams Goodwin,2005-12-30 This third entry in the Jumpstarts series focuses on Science topics for upper elementary and middle school students Maintaining the 99 Jumpstarts format of the two previous books 99 Jumpstarts for Kids Science Research is divided into ten broad topical sections Each topic is arranged in alphabetical order under its section Topics include Body Parts Energy Animals Heavens Weather Matter Medicine Technology Environment and Geology This pathfinder approach aides students in the research process helping them define important terms offer beginning questions to help narrow their topic furnish source ideas and some fun activities to explore each topic Grades 4 8

Holmes, 2023-04-27 Did you know you have the power and the materials at your fingertips to facilitate the actual brain growth of students This book is a practical resource to engage K 6 students with STEAM content through their five senses seeing listening touch movement smell and taste It combines historical research practical suggestions and current practices on the stages of cognitive development and the brain s physical response to emotion and novelty to help you learn ways to transform ordinary lesson plans into novel and exciting opportunities for students to learn through instruction exploration inquiry and discovery In addition to providing examples of sensory rich unit plans the authors take you through the step by step process on how to plan a thematic unit and break it down into daily seamless lesson plans that integrate science technology engineering arts and mathematics With 25 themed STEAM unit plans and activities based on national standards up to date research on brain science and real classroom experience this book shows multiple ways to develop and deliver active multisensory activities and wow your students with sights and sounds as soon as they come through the door of your classroom

Embracing the Song of Phrase: An Psychological Symphony within **Solar System Planets Lesson Plans**

In some sort of eaten by screens and the ceaseless chatter of immediate connection, the melodic beauty and mental symphony produced by the prepared term frequently fade in to the back ground, eclipsed by the constant sound and disruptions that permeate our lives. But, located within the pages of **Solar System Planets Lesson Plans** a charming fictional prize overflowing with natural feelings, lies an immersive symphony waiting to be embraced. Crafted by a wonderful composer of language, that charming masterpiece conducts viewers on a psychological trip, well unraveling the hidden melodies and profound influence resonating within each cautiously constructed phrase. Within the depths of the touching examination, we shall discover the book is key harmonies, analyze their enthralling publishing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
