To whom it may concern:

Re. Alejandro Azcona Heinecke

I write to enthusiastically recommend Mr. Azcona Heinecke for membership in your society. My law practice is devoted primarily to immigration and many of my clients speak only Spanish. I have employed Mr. Azcona Heinecke as a Spanish interpreter and translator on many occasions, since late 2007. In addition to working with Mr. Azcona Heinecke in my office, I have appeared at numerous Immigration and Refugee Board hearings where he served as the interpreter. On every occasion that I have worked with Mr. Azcona Heinecke his work has exceeded the highest professional standards. He is adept at interpreting complex matters and his translation work is always excellent and timely.

Please do not hesitate to contact me if you require any further information regarding Mr. Azcona Heinecke's application for membership to your society.

Yours truly,

Context in Communication: A Cognitive View Gabriella Airenti,Marco Cruciani,Alessio Plebe,2017-04-03 Context is what contributes to interpret a communicative act beyond the spoken words It provides information essential to clarify the intentions of a speaker and thus to identify the actual meaning of an utterance A large amount of research in Pragmatics has shown how wide ranging and multifaceted this concept can be Context spans from the preceding words in a conversation to the general knowledge that the interlocutors supposedly share from the perceived environment to features and traits that the

participants in a dialogue attribute to each other This last category is also very broad since it includes mental and emotional states together with culturally constructed knowledge such as the reciprocal identification of social roles and positions The assumption of a cognitive point of view brings to the foreground a number of new questions regarding how information about the context is organized in the mind and how this kind of knowledge is used in specific communicative situations A related very important question concerns the role played in this process by theory of mind abilities ToM both in typical and atypical populations In this Research Topic we bring together articles that address different aspects of context analysis from theoretical and empirical perspectives integrating knowledge and methods derived from Philosophy of language Linguistics Cognitive Science Cognitive Neuroscience Developmental and Clinical Psychology

The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance Dieter Heinzig,2015-06-18 Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China s relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China s relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions
