**Matricentric Feminism: Theory, Activism, Practice. The 2nd Edition** Andrea O'Reilly, 2021-04-04 The 2nd edition includes a new preface that considers how matricentric feminism in positioning mothering as a verb affords a gender neutral understanding of motherwork and allows for an appreciation of how motherwork is deeply gendered and how this may be challenged and changed through empowered mothering The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face are specific to women's role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice

**Matricentric Feminism**

Andrea O'Reilly, 2016-10-01 The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face social economic political cultural psychological and so forth are specific to women's role and identity as mothers. Indeed mothers are oppressed under patriarchy as women and as mothers. Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment. O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice. The chapter on maternal theory examines the central theoretical concepts of maternal scholarship while the chapter on activism considers the twenty first century motherhood movement. Feminist mothering is likewise examined as the specific practice of matricentric feminism and this chapter discusses various theories and strategies on and for maternal empowerment. Matricentric feminism is also examined in relation to the larger field of academic feminism here O'Reilly persuasively shows how matricentric feminism has been marginalized in academic feminism and considers the reasons for such exclusion and how such may be challenged and changed.

Interpreting Life Patricia C. Burke, 2011-03-25 Interpreting Life depicts one Christian woman's struggle to determine her place in the home and church as the traditional roles of the 1950s gave way to the chaos created by the social movements of the 1960s and 1970s. Burke's lengthy journey brought her from a state of confusion to a conscious awareness of the effects of her cohort conservative religious beliefs and close relationships on her personal and spiritual development. From childhood she worshipped with a church where submission scriptures in the New Testament were taken literally and women were not allowed to participate in any public leadership roles such as leading prayers and songs teaching adults or preaching. As society changed and women gradually acquired leadership roles in other organizations these church practices became more stifling preventing many conservative women from using their God-given talents. Because of her marriage to a minister where she felt her family was living in a glass house it became exceedingly frustrating to adhere to traditional religious values. Throughout this process their marriage relationship was repeatedly challenged but their commitment to each other and the church helped them resolve their differences and work together to reinterpret women's roles in the church. Journal writing was the technique used to make sense of the contradictions and internal conflict experienced as this Christian woman attempted to remain faithful to her religious beliefs and yet develop to her full potential. Excerpts from over thirty years of writing reveals the strategies Burke employed to remain positive and productive as family and church priorities took precedent over her own dreams.

**Communicative Understandings of Women's Leadership Development** Elesha L. Ruminski, Annette M. Holba, 2011-12-16 **Communicative Understandings of Women's Leadership Development** From Ceilings of Glass to Labyrinth Paths edited by Elesha L. Ruminski and Annette M. Holba intertwines the disciplines of communication studies leadership studies and women's studies to offer theoretical and practical reflection about women's leadership development in academic organizational and political contexts. Women's leadership development exists at the intersection of consciousness raising

communication competence and education to increase one's knowledge and practice of leadership which makes the weaving together of these three disciplines important. Thus, Communicative Understandings of Women's Leadership Development claims a space for women's leadership studies and acknowledges the paradigmatic shift from discussing women's leadership using the glass ceiling phenomenon to what Eagly and Carli (2007) identify as the labyrinth of leadership. Recognizing this metaphoric shift is crucial because many women now develop leadership amid the postmodern flux of organizational change. Hierarchical top-down systems are being eroded in lieu of transformational, collaborative, even improvisational leadership processes. Women's leadership studies is emerging as a fruitful interdisciplinary area that reframes the debate about whether we live, work, and learn within a third-wave feminist or post-feminist context. While this area might include feminist theorizing, it also might not emphasize such epistemologies. For this reason, Ruminski and Holba's edited collection explores and highlights a variety of feminist and non-feminist intersections and is thus an important and timely contribution to both marking where we are with women's leadership development in higher education and how women can further develop themselves as leaders.

**Interracial Communication** Mark P. Orbe, Tina M. Harris, 2022-11-11 As the racial and ethnic landscape of the United States shifts, interracial communication plays an increasingly crucial role. The sociopolitical climate has impacted identities, relationships, media, and organizations, challenging the possibility of having transformative engagement about race. Power differences affected by race, ethnicity, class, gender, sexuality, ability, age, and geography are sometimes invisible. Competent interracial communication is key to alleviating polarized interactions and addressing the unequal treatment of microcultures. Part I of the book provides essential background, including the history of race, the importance of communication, the development and intersectionality of racial and ethnic identities, and models and theories of interracial communication. Part II applies this information to communication practices in specific everyday contexts: global racial hierarchies and colorism, friendships, romantic relationships, communication in the workplace, interracial conflict, and race and ethnicity in the media. The concluding chapter outlines pathways to meaningful change and invites readers to become active participants in dialogue to facilitate working through differences. The authors offer comprehensive, readable, and insightful coverage of pressing issues. They focus on communication as vital to removing barriers to understanding. Becoming proactive in eliminating racism on a personal level is a step toward the macro-level changes required to dismantle systemic racism. The fourth edition is a socially relevant resource for facilitating interracial dialogue to create a positive climate to work together to achieve social justice.
