## **Red Desert History Of A Place:**

*Red Desert* Annie Proulx, 2012-07-25 A photographic and multidisciplinary study of one of America's last undeveloped and most endangered landscapes edited by a Pulitzer Prize winning author A vast expanse of rock formations sand dunes and sagebrush in central and southwest Wyoming the little known Red Desert is one of the last undeveloped landscapes in the United States as well as one of the most endangered It is a last refuge for many species of wildlife Sitting atop one of North America's largest untapped reservoirs of natural gas the Red Desert is a magnet for energy producers who are damaging its complex and fragile ecosystem in a headlong race to open a new domestic source of energy and reap the profits To capture and preserve what makes the Red Desert both valuable and scientifically and historically interesting writer Annie Proulx and photographer Martin Stupich enlisted a team of scientists and scholars to join them in exploring the Red Desert through many disciplines geology hydrology paleontology ornithology zoology entomology botany climatology anthropology archaeology sociology and history Their essays reveal many fascinating often previously unknown facts about the Red Desert everything from the rich pocket habitats that support an amazing diversity of life to engrossing stories of the transcontinental migrations that began in prehistory and continue today on I 80 which bisects the Red Desert Complemented by Martin Stupich's photo essay which portrays both the beauty and the devastation that characterize the region today *Red Desert* bears eloquent witness to a unique landscape in its final years as a wild place *Red Desert*, 2013 Description Movie Press Kits

**The Lost Frontier** Mark Asquith, 2014-06-19 The success of *The Shipping News* and the film of *Brokeback Mountain* brought Proulx international recognition but their success merely confirms what literary critics have known for some time Proulx is one of the most provocative and stylistically innovative writers in America today She is at her best in the short story format and the best of these are to be found in her Wyoming trilogy in which she turns her eye on America's West both past and present Yet despite the vast amount of print expended reviewing her books there has been nothing published on the Wyoming Stories There is appetite for such a work the plethora of critical work on McCarthy's *Border Trilogy* indicates that the reinvention of the West is a subject for serious academic study Provided by publisher **The Geographical**

**Imagination of Annie Proulx** Alex Hunt, 2010-11-23 This edited collection focuses on Annie Proulx's striking attention to geography place landscape and local environments Contributors consider Proulx's particular landscapes particularly those of Wyoming New England Texas and Newfoundland and the issues surrounding the significance of these regions and regionalism in contemporary culture and literature **Zen of the Plains** Tyra A. Olstad, 2014-05-15 Although spare

sweeping landscapes may appear empty plains and prairies afford a rich unique aesthetic experience one of quiet sunrises and dramatic storms hidden treasures and abundant wildlife infinite horizons and omnipresent wind all worthy of contemplation and celebration In this series of narratives photographs and hand drawn maps Tyra Olstad blends scholarly research with first hand observation to explore topics such as wildness and wilderness travel and tourism preservation and

conservation expectations and acceptance and even dreams and reality in the context of parks prairies and wild open places In so doing she invites readers to reconsider the meaning of emptiness and ask larger deeper questions such as how do people experience the world How do we shape places and how do places shape us Above all what does it mean to experience that exhilarating effect known as Zen of the plains

**Lost in the New West** Mark Asquith,2021-10-07 Lost in the New West investigates a group of writers John Williams Cormac McCarthy Annie Proulx and Thomas McGuane who have sought to explore the tensions inherent to the Western where the distinctions between old and new myth and reality authenticity and sentimentality are frequently blurred Collectively these authors demonstrate a deep seated attachment to the landscape people and values of the West and offer a critical appraisal of the dialogue between the contemporary West and its legacy Mark Asquith draws attention to the idealistic young men at the center of such works as Williams s Butcher s Crossing 1960 McCarthy s Blood Meridian 1985 and Border Trilogy Proulx s Wyoming stories and McGuane s Deadrock novels For each writer these characters struggle to come to terms with the difference between the suspect mythology of the West that shapes their identity and the reality that surrounds them They are in short lost in the new West

**Mountains and Plains** Dennis H. Knight,George P. Jones,William A. Reiners,William H. Romme,2014-01-01 Many changessome discouraging others hopefulhave occurred in the Rocky Mountain region since the first edition of this widely acclaimed book was published Wildlife habitat has become more fragmented once abundant sage grouse are now scarce and forest fires occur more frequently At the same time wolves have been successfully reintroduced and new approaches to conservation have been adopted For this updated and expanded Second Edition the authors provide a highly readable synthesis of research undertaken in the past two decades and address two important questions How can ecosystems be used so that future generations benefit from them as we have How can we anticipate and adapt to climate changes while conserving biological diversity

A brilliant boundary leaping debut novel tracing twelve year old genius map maker T S Spivet s attempts to understand the ways of the world When twelve year old genius cartographer T S Spivet receives an unexpected phone call from the Smithsonian announcing he has won the prestigious Baird Award life as normal if you consider mapping family dinner table conversation normal is interrupted and a wild cross country adventure begins taking T S from his family ranch just north of Divide Montana to the museum s hallowed halls T S sets out alone leaving before dawn with a plan to hop a freight train and hobo east Once aboard his adventures step into high gear and he meticulously maps charts and illustrates his exploits documenting mythical wormholes in the Midwest the urban phenomenon of rims and the pleasures of McDonald s among other things We come to see the world through T S s eyes and in his thorough investigation of the outside world he also reveals himself As he travels away from the ranch and his family we learn how the journey also brings him closer to home A secret family history found within his luggage tells the story of T S s ancestors and their long ago passage west offering profound insight into the family he left behind and his role within it As T S reads he discovers the sometimes shadowy boundary between fact and fiction and realizes that for all his analytical rigor the world around him is a mystery All that he has learned is tested when he arrives at the capital to claim his prize and is welcomed into science s inner circle For all its shine fame seems more highly valued than ideas in this new world and friends are hard to find T S s trip begins at the Copper Top Ranch and the last known place he stands is Washington D C but his journey s movement is far harder to track How do you map the delicate lessons learned about family and self How do you depict how it feels to first venture out on your own Is there a definitive way to communicate the ebbs and tides of heartbreak loss loneliness love These are the questions that strike at the core of this very special debut Now a major motion picture directed by Jean Pierre Jeunet and starring Kyle Catlett and Helena Bonham Carter      **The Cinema of Economic Miracles** Angelo Restivo, 2002-02-26
