Poetic Dialectic Toni Morrison:

Toni Morrison and Literary Tradition Justine Baillie, 2013-08-01 Choice Outstanding Academic Title 2014 Toni Morrison and Literary Tradition explores Toni Morrison's construction of alternative and oppositional narratives of history and places her work as central to the imagining and re-imagining of American and diasporic identities. Covering the Nobel Prize-winning author's novels up to *Home* as well as her essays, dramatic works, and short stories, this book situates Morrison's writings within both African American and American writing traditions and examines them in terms of her continuous dialogue with the politics, philosophy, and literary forms of these traditions. Toni Morrison and Literary Tradition provides a comprehensive analysis of Morrison's entire oeuvre from her early interrogation of Black Power to her engagement with fin de siècle postcolonial critiques of nationalism and twenty-first-century considerations of ecology. Justine Baillie goes on to argue that Morrison's aesthetic should be understood in relation to the historical, political, and cultural contexts in which it and the African American and American literary traditions upon which she draws have been created and developed. Toni Morrison: An Ethical Poetics Yvette Christianse, 2013 Toni Morrison An Ethical Poetics situates Toni Morrison as a writer who writes about writing as much as about racialized, engendered, and sexualized African American and therefore American experience. In foregrounding the ethics of fiction writing, the book resists any triumphalist reading of Morrison's achievement in order to allow the meditative, unsettled, and unsettling questions that arise throughout her long labor at the nexus of language and politics, where her fiction interrogates representation itself. Moving between close reading and critical theory, Toni Morrison An Ethical Poetics reveals the ways in which Morrison's primary engagement with language has been a search for how and what language is made to communicate and for how and what speaks in and from generation to generation. There is no easy escape from such legacy; no escape into a pure language free of the burdens of racialized agendas. Rather, there is the example of Morrison's commitment to writerly, which is to say readerly, wakefulness. At a time when sustained study devoted to single authors has become rare, this book will be an invaluable resource for readers, scholars, and teachers of Morrison's work. *Du Bois's Dialectics* Reiland Rabaka, 2009-01-01 With chapters that undertake ideological critiques of education, religion, the politics of reparations, and the problematics of black radical politics in contemporary culture and society, Du Bois's Dialectics employs Du Bois as its critical theoretical point of departure and demonstrates his and African American Studies contributions to as well as contemporary critical theory's connections to critical pedagogy, sociology of religion, and reparations theory. Rabaka offers the first critical theoretical treatment of the W. E. B. Du Bois-Booker T. Washington debate, which lucidly highlights Du Bois's transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist. African American Vernacular English as a Literary Dialect Sophia Huber, 2018-06-13 Knowledge about one's linguistic background, especially when it is different from mainstream varieties, provides a basis for identity, and self-ancestral values can be upheld, celebrated, and rooted further in the consciousness of its speakers. In the case of African American

Vernacular English AAVE the matter is not straightforward and ultimately the social implications its speakers still face today are unresolved Through detailed analysis of the four building blocks phonology morphology syntax and vocabulary Sophia Huber tries to trace the development of AAVE as a literary dialect By unearthing in what ways AAVE in its written form is different from the spoken variety long established social stigmata and stereotypes which have been burned into the consciousness of the USA through a initially white dominated literary tradition will be exposed Analysing fourteen novels and one short story featuring AAVE it is the first linguistic study of this scope

T.S. Eliot and the Poetics of Evolution Lois A. Cuddy, 2000 Guided by Eliot's own allusions and references to specific authors and historical moments Cuddy adds a feminist cultural and intertextual perspective to the familiar critical interpretations of Eliot's work in order to reread poems and plays through nineteenth century ideologies and knowledge set against our own time By considering the implications and consequences of Eliot's culturally approved assumptions this study further reveals how Eliot was trapped between the idea of Evolution as a unifying project and the reality of his own and his culture's hierarchical and fragmenting beliefs about class gender religion and race Cuddy concludes by exploring how this conflict undermined Eliot's mission of unity and influenced his and Modernism's place in history

BOOK JACKET The Poetics of National and Racial Identity in Nineteenth-Century American Literature John D. Kerkerling, 2003-12-11 John D Kerkerling's study examines the literary history of racial and national identity in nineteenth century America Kerkerling argues that writers such as DuBois Lanier Simms and Scott used poetic effects to assert the distinctiveness of certain groups in a diffuse social landscape Kerkerling explores poetry's formal properties its sound effects as they intersect with the issues of race and nation He shows how formal effects ranging from meter and rhythm to alliteration and melody provide these writers with evidence of a collective identity whether national or racial Through this shared reliance on formal literary effects national and racial identities Kerkerling shows are related elements of a single literary history This is the story of how poetic effects helped to define national identities in Anglo America as a step toward helping to define racial identities within the United States This highly original study will command a wide audience of Americanists

A Life in Poetry Bobby Waddell Kellum, 2008-07-17 Seeing that our paths are destined to cross We by instinct maneuvered so that no time is lost To clear each others way adjusting on either side As that point was reached so that we do not collide With an acute acknowledgment from eye to eye As we without accident past and I asked why Since nothing is by chance I wondered at each quick glance What the meaning was of this encounter Did God decide you and I make silent banter

The Dialectics of Our America José David Saldívar, 1991-10-31 Joining the current debates in American literary history Jos David Sald var offers a challenging new perspective on what constitutes not only the canon in American literature but also the notion of America itself His aim is the articulation of a fresh transgeographical conception of American culture one more responsive to the geographical ties and political crosscurrents of the hemisphere than to narrow national ideologies Sald var pursues this goal through an array of oppositional critical and creative practices He analyzes a range of North American writers of color Rolando Hinojosa Gloria Anzald a Arturo Islas Ntozake Shange and others and Latin American authors Jos Mart Roberto Fern ndez Retamar Gabriel Garc a M rquez and others whose work forms a radical critique of the dominant culture its politics and its restrictive modes of expression By doing so Sald var opens the traditional American canon to a dialog with other voices not just the voices of national minorities but those of regional cultures different from the prevalent anglocentric model The Dialectics of Our America in its project to expand the canon and define a pan American literary tradition will make a critical difference in ongoing attempts to reconceptualize American literary history

Liberating Voices Gayl Jones, 1991 The powerful novelist here turns penetrating critic giving us ein lively style eboth trenchant literary analysis and fresh insight on the art of writing eoeWhen African American writers began to trust the literary possibilities of their own verbal and musical creations e writes Gayl Jones they began to transform the European and European American models and to gain greater artistic sovereignty e The vitality of African American literature derives from its incorporation of traditional oral forms folktales riddles idiom jazz rhythms spirituals and blues Jones traces the development of this literature as African American writers celebrating their oral heritage developed distinctive literary forms The twentieth century saw a new confidence and deliberateness in African American work the move from surface use of dialect to articulation of a genuine black voice the move from blacks portrayed for a white audience to characterization relieved of the need to justify Innovative writing esuch as Charles Waddell Chesnutt e tm s depiction of black folk culture Langston Hughes e tm s poetic use of blues and Amiri Baraka e tm s recreation of the short story as a jazz piece eredefined Western literary tradition For Jones literary technique is never far removed from its social and political implications She documents how literary form is inherently and intensely national and shows how the European monopoly on acceptable forms for literary art stifled American writers both black and white Jones is especially eloquent in describing the dilemma of the African American writers to write from their roots yet retain a universal voice to merge the power and fluidity of oral tradition with the structure needed for written presentation With this work Gayl Jones has added a new dimension to African American literary history

A Preface to Colonial American Poetry Wisam Abdul Jabbar, 2005-02

A Preface to Colonial American Poetry is a practical source for anyone interested in American literature. Encyclopedic and groundbreaking, *A Preface to Colonial American Poetry* presents a critical analytical survey of Colonial American poetry within the context of American literature in general. In clear and easy to understand language, the book chronicles significant events from the arrival of the first emigrants at the Jamestown colony to the Declaration of Independence. The poetry of New England, Middle and South colonies is discussed with its fascinating interplay of diverse influences. The early settlers had already burned most of their bridges to the traditional culture behind them when they sailed for America, and yet their writers kept looking back for inspiration. Author Wisam Khalid brings his modest experience with foreign students to the formation of this book to help international students better understand American history and literature in terms of discovery, foundation periods, and pioneers. Author Wisam Khalid has tailored this book to fit the needs of not only foreign seekers but also native undergraduates who will find interesting comparative insights into American and English poetry.

Song Lyrics and Literary History Gunilla Hermansson, 2025-06-12

Paving new paths for the study of the history of literature, this study explores the intricate networks of one single poem across two centuries. The *V rvindar friska*, a poem meant to be sung, The Swedish song *V rvindar friska*, *Fresh Spring Breezes*, started its public life in 1828 between the covers of a book as a poem written to a traditional melody. Since then, it has been reprinted, translated, performed, and used in the most surprising contexts in different corners of the world. This particular case may be rather exceptional, but Gunilla Hermansson argues that the underlying dynamics are not, and yet they have been underexposed in studies of literary history. This exploration of *V rvindar friska* reveals the rich and intricate network of one text and uncovers new facets of how people have engaged with word art in their everyday lives in the modern era. This network includes untraditional yet widespread uses of poetry and lyrics in lonely hearts columns and railway work and seemingly strange bedfellows such as a constellation of Nordic folk songs and American plantation songs. The afterlives of this song evoke questions concerning class, gender, race, citizenship, technology, and modernity from new angles, as well as theoretical and methodological questions of circulation, textual instability, canonization, paradigmatic turns, uses, and misuses. *Song Lyrics and Literary History* demonstrates how poetry is transformed when shared across time, borders, media, and social and ideological divides. Being attentive to poetry meant to be sung, Hermansson argues, opens to a fuller and more representative picture of the cultural history of literature.

Transnational Spaces: Celebrating Fifty Years of Literary and Cultural Intersections at NeMLA Carine

Mardorossian, Simona Wright, 2023-01-31 This volume celebrates fifty years of NeMLA's important presence in the world of academia with a collection of essays that adopt a transnational critical lens. With the present selection we intend to add our voices to the ongoing debate centered on the renegotiation of space, national and cultural geographies to foster both the rethinking of language and literature not exclusively in English and the study of race, gender, sexuality and class within and across national boundaries. Most pertinently for this collection we hope to add meaningful material to produce new theoretical paradigms and to rethink the role and significance of the humanities in today's world. In this light *Transnational Spaces: Celebrating Fifty Years of Literary Cultural and Language Intersections at NeMLA* offers a contribution to the study of our present transnational condition from the point of view of an organization, the Northeast Modern Language Association, that since its inception in 1969 has sought to provide a space of encounter, debate and open intellectual exchange for all its members as well as for the academe at large. The essays contained in this volume emphasize the interdependency and interrelations engendered by the globalized world in which we live, highlighting the possibility to create new knowledge and forms of understanding across the boundaries of nationhood and region. At the same time they remind us that the present situation calls for a radical self-examination of a history of systemic racism which continues to produce episodes of police brutality, rationalizes cultural and economic exclusion and normalizes the incarceration of African Americans and illegal immigrants including children and minorities. In this light with this volume we hope to have provided inclusive, egalitarian and cosmopolitan spaces of encounter, exchange and interrogation.

The Other-Conscious Ethics of Innovative Black Poetry Grant Matthew Jenkins, 2024-11-04 This monograph identifies and investigates the other-conscious ethics in black avant-garde poetry since the 1980s. Drawing on a long tradition in the African Diaspora of ethical writings that put the Other first, this work shows how black poets writing in an avant-garde or experimental vein in the United States push language to its limits to reveal how poetry can address and exemplify ethical postures towards other people. This other-centered vantage allows the poets to incisively comment on some of this period's most pressing ethical issues including postcolonial and racialized violence, the history of slavery and segregation in America and the expansion of human consciousness. The writers involved in this study include Nathaniel Mackey, Erica Hunt, Will Alexander, Harryette Mullen and Mark McMorris.

Dialect and Dichotomy Lisa Cohen Minnick, 2004 *Dialect and Dichotomy* outlines the history of dialect writing in English and its influence on linguistic variation. It also surveys American dialect writing and its relationship to literary, linguistic, political and cultural trends with emphasis on African American voices in literature.

On Modern Poetry Guido Mazzoni, 2022-04-19 Guido Mazzoni tells the story of poetry's revolution in the modern age. The chief transformation was the rise of the lyric as it is now conceived, a genre in which a first-person speaker talks about itself. Mazzoni argues that modern poetry embodies the age of the individual and has wrought profound changes in the expectations of readers.
