Worlding the south Sarah Comyn, Porscha Fermanis, 2021-07-06 This electronic version has been made available under a Creative Commons BY NC ND open access license This collection brings together for the first time literary studies of British colonies in nineteenth century Australia New Zealand South Africa South America Southeast Asia and the South Pacific Islands Drawing on hemispheric studies Indigenous studies and southern theory to decentre British and other European metropolises the collection offers a groundbreaking challenge to national paradigms and traditional literary periodisations and canons by prioritising southern cultural networks in multiple regional centres from Cape Town to Dunedin Worlding the south examines the dialectics of literary worldedness in ways that recognise inequalities of power textual and material violence and literary and cultural resistance The collection revises current literary histories of the British world by arguing for the distinctiveness of settler colonialism in the southern hemisphere and by incorporating Indigenous diasporic and south south perspectives

Worlding Forster Stuart Christie, 2013-11-05 Focusing on the literary works and career of British novelist E M Forster 1879 1970 this book argues that the writer adapted a much older literary form the pastoral to the purposes of writing about modern British experience The publication points out that Forster s pastoral fiction challenged conventional parameters for the British novel allowing for the emergence of his subsequent modernist classic A Passage to India including its critique of British imperialism The monograph also provides a rationale for why Forster subsequently turned his artistic focus beyond Britain embracing public radio under the direction of the British Broadcasting Corporation

Scheiding, Martin Seidl, 2014-10-22 *Worlding America* explores the circulation of short narratives in the early Americas through a combination of neglected primary materials and scholarly commentary Building on recent reconsiderations of American literature in light of transnational and hemispheric approaches it follows the migration of stories from various backgrounds and demonstrates how forms and themes developed in a new literary market that spanned the Atlantic world While short narratives prior to 1800 have been largely excluded from critical discussions as well as anthologies they give insight into the conditions of publishing and writing as well as the demand for brief entertaining pieces that was met by a

wide variety of sources including sermons letters diaries travelogues and eventually magazines and newspapers Breaking with traditional concepts of period authorship and genre Worlding America groups the different types of narratives it anthologizes according to key subject areas such as Life Writing Female Agency or the Cultures of Print Each section is introduced by a headnote that explains relevant historical and literary developments situating each narrative in its cultural context and providing its publication history Suggestions for further reading will also be appreciated by scholars and students wishing to pursue research in these underrepresented forms
