**Revolutionary Wealth** Alvin Toffler, Heidi Toffler, 2007-06-12 Since the mid 1960s Alvin and Heidi Toffler have predicted the far reaching impact of emerging technological economic and social developments on our businesses governments families and daily lives In **REVOLUTIONARY WEALTH** they once again demonstrate their unparalleled ability to illuminate current trends and anticipate what they mean for the future **REVOLUTIONARY WEALTH** focuses on how wealth will be created and who will get it in the twenty first century As the knowledge based economy a reality the Tofflers predicted forty years ago continues to replace the industrial based economy they argue money is no longer the sole determinate of wealth The Tofflers explain that we are becoming a nation of prosumers consuming what we ourselves produce and argue that we have all taken on third jobs work we unwittingly do without pay for some of the biggest corporations in the country Using fascinating examples from our daily lives they illustrate how our everyday activities from parenting and volunteering to blogging painting our houses and improving our diets contribute to a non monetary economy that is largely hidden from economists Writing with the same insight and clarity that made their earlier books bestsellers the Tofflers present fresh groundbreaking new ways of thinking about wealth

*Big Green Purse* Diane Maceachern, 2008-02-28 Read Diane McEachern s posts on the Penguin Blog Protecting our environment is one of the biggest issues facing our planet today But how do we solve a problem that can seem overwhelming even hopeless As Diane MacEachern argues in *Big Green Purse* the best way to fight the industries that pollute the planet thereby changing the marketplace forever is to mobilize the most powerful consumer force in the world women MacEachern s message is simple but revolutionary If women harness the power of their purse and intentionally shift their spending money to commodities that have the greatest environmental benefit they can create a cleaner greener world Spirited and informative this book targets twenty commodities cars cosmetics coffee food paper products appliances cleansers and more where women s dollars can make a dramatic difference provides easy to follow guidelines and lists so women can choose the greenest option regardless of what they re buying along with recommended companies they should support encourages women to spend wisely by explaining what s worth the premium price some green products cost what s not and when they shouldn t spend money at all and differentiates between products that are actually green and those that are simply marketed as ecofriendly Whether readers want to start with small changes or are ready to devote the majority of their budget to green products MacEachern offers concrete and immediate ways that women can take action and make a difference Empowering and enlightening *Big Green Purse* will become the green shopping bible for women everywhere who are asking What can I do

**Constructionism in Practice** Yasmin B. Kafai, Mitchel Resnick, 2012-11-12 The digital revolution necessitates but also makes possible radical changes in how and what we learn This book describes a set of innovative educational research projects at the MIT Media Laboratory illustrating how new computational technologies can transform our conceptions of learning education and

knowledge The book draws on real world education experiments conducted in formal and informal contexts from inner city schools and university labs to neighborhoods and after school clubhouses The papers in this book are divided in four interrelated sections as follows Perspectives in Constructionism further develops the intellectual underpinnings of constructionist theory This section looks closely at the role of perspective taking in learning and discusses how both cognitive and affective processes play a central role in building connections between old and new knowledge Learning through Design analyzes the relationship between designing and learning and discusses ways that design activities can provide personally meaningful contexts for learning This section investigates how and why children can learn through the processes of constructing artifacts such as games textile patterns robots and interactive devices Learning in Communities focuses on the social aspects of constructionist learning recognizing that how people learn is deeply influenced by the communities and cultures with which they interact It examines the nature of learning in classroom inner city and virtual communities Learning about Systems examines how students make sense of biological technological and mathematical systems This section explores the conceptual and epistemological barriers to learning about feedback self organization and probability and it discusses new technological tools and activities that can help people develop new ways of thinking about these phenomena
