Nigel Wier,2011-09-02 This book is about the murders of police officers in the United Kingdom since the end of the Second World War till the modern day You will see that all the murders are horrific and and without any justification against the people will ask to police our streets You will see that most of the officers are unarmed and all our brave The murderer does not distinguish between the ranks of the police officers as you will see in this book it appears that he kills with malice with no thought for anyone apart from himself I hope the book gives you a little insight into the world of a policeman and what they have to face each and every day *Reconceptualising Strict Liability for the Tort of Another* Christine Beuermann,2019-11-28 This book adopts a novel approach to resolving the present difficulties experienced by the courts in imposing strict liability for the tort of another It looks beyond the traditional classifications of vicarious liability and liability for breach of a non delegable duty of care and for the first time seeks to explain all instances of strict liability for the tort of another in terms of the various relationships in which the courts impose such liability The book shows that despite appearances there is a unifying feature to the various relationships in which the courts currently impose strict liability for the tort of another That feature is authority Whenever the courts impose strict liability for the tort of another the defendant is either vested with authority over the person who committed a tort against the claimant or has vested or conferred a form of authority upon that person in respect of the claimant This book uses this feature of authority to construct a new expositive framework within which strict liability for the tort of another can be understood *The Christian Century* ,1926
