# Introduction

What is a Dashboard?

A Dashboard is a powerful, web-based tool capable of providing a consolidated view of organizational performance to executive level management using a balanced "scorecard" approach. By customizing a dashboard to measure and understand the key performance indicators and performance metrics, collaborative data analysis is made available resulting in optimum decision-making strategies.

IT Dashboard Navigation

Shown below is an example of a standard page layout that allows users to select from the six main global and regional pages found on the Navigation Bar located on the left-hand side of the frame. To learn more about these different views, look further in this document.

Navigation bar offers links to allow quick and easy access to other pages within the IT dashboard.

Shown is the **title** of the particular dashboard screen chosen from the navigation bar.

Date indicates how recent the financial information is within the dashboard.

The **filters** section allows for Currency, Year & Period options

The **Data Tables or Charts & Graphs** for the chosen view
