The stages of antebellum New Orleans did more than entertain In the city s early years French speaking residents used the theatre to assert their political economic and cultural sovereignty in the face of growing Anglo American dominance Beyond local stages the francophone struggle for cultural survival connected people and places in the early United States across the American hemisphere and in the Atlantic world Moving from France to the Caribbean to the American continent Creole Drama follows the people that created and sustained French theatre culture in New Orleans from its inception in 1792 until the beginning of the Civil War Juliane Braun draws on the neglected archive of francophone drama native to Louisiana as well as a range of documents from both sides of the Atlantic to explore the ways in which theatre and drama shaped debates about ethnic identity and transnational belonging in the city Francophone identity united citizens of different social and racial backgrounds and debates about political representation slavery and territorial expansion often played out on stage Recognizing theatres as sites of cultural exchange that could cross oceans and borders Creole Drama offers not only a detailed history of francophone theatre in New Orleans but also an account of the surprising ways in which multilingualism and early transnational networks helped create the American nation

Domenica Preysing offers a critical reading of transitional justice that focuses on political dynamics in post revolutionary Tunisia from the ouster of president Ben Ali in January 2011 until the adoption of transitional justice bill in December 2013 She explores the role structure and characteristics of evolving transitional justice policy discourse to provide a better understanding of how by who and to what effect the policy label transitional justice is progressively filled with meaning She shows that conflicting interpretations of both the past and the present have been both deeply embedded in and an expression of the dynamic context of domestic political transformation as old and new elites struggle over the political identity and direction of post Ben Ali Tunisia
