Divide and Conquer George Weisz, 2006 Examines one of the most significant and characteristic features of modern medicine specialization in historical and comparative context This title traces the origins of modern medical specialization to 1830s Paris and examines its spread to Germany Britain and the US

Rethinking Political Islam Shadi Hamid, William McCants, 2017-07-17 For years scholars hypothesized about what Islamists might do if they ever came to power Now they have answers confusing ones In the Levant ISIS established a government by brute force implementing an extreme interpretation of Islamic law On the opposite end of the spectrum Tunisia's Ennahda Party governed in coalition with two secular parties ratified a liberal constitution and voluntarily stepped down from power In Egypt the Muslim Brotherhood the world's oldest Islamist movement won power through free elections only to be ousted by a military coup The strikingly disparate results of Islamist movements have challenged conventional wisdom on political Islam forcing experts and Islamists to rethink some of their most basic assumptions In *Rethinking Political Islam* two of the leading scholars on Islamism Shadi Hamid and William McCants have gathered a group of leading specialists in the field to explain how an array of Islamist movements across the Middle East and Asia have responded Unlike ISIS and other jihadist groups that garner the most media attention these movements have largely opted for gradual change Their choices however have been reshaped by the revolutionary politics of the region The groups depicted in the volume capture the contradictions successes and failures of Islamism providing a fascinating window into a rapidly changing Middle East It is the first book to systematically assess the evolution of mainstream Islamist groups since the Arab uprisings and the rise of ISIS covering 12 country cases In each instance contributors address key questions including gradual versus revolutionary approaches to change the use of tactical or situational violence attitudes toward the nation state and how ideology religion and political variables interact For the first time in book form readers will also hear directly from Islamist activists and leaders themselves as they offer their own perspectives on the future of their movements Islamists will have the opportunity to challenge the assumptions and arguments of some of the leading scholars of Islamism in the spirit of constructive dialogue *Rethinking Political Islam* includes three of the most important country cases outside the Middle East Indonesia Malaysia and Pakistan allowing readers to consider a greater diversity of Islamist experiences The book's contributors have immersed themselves in the world of political Islam and conducted original research in the field resulting in rich accounts of what animates Islamist behavior

La bioéthique en question Dominique Folscheid, 2015-04-03

première vue tout le monde croit comprendre ce que signifie bioéthique On pense en effet aussitôt une éthique spécialisée dans les problèmes bios Et l'on ne se trompe pas si l'on désigne par là un champ nouveau de l'action humaine Il a fait son apparition cause de l'irruption du progrès scientifique et technique dans des pratiques inédites tant médicales qu'extra-médicales mais qui concernent toutes ce que l'on peut et ce que l'on veut faire de l'homme Mais est-ce une raison n

cessaire et suffisante pour se charger d'un mot nouveau susceptible de faire double emploi avec celui d'ethique. Car enfin qu'a fait l'ethique depuis qu'elle existe sinon se préoccuper de la vie bios. Comme l'a suggéré France Quir, viserait-on un quelconque effet marketing dans le but de vendre de l'ethique aux Américains. Ou bien cherche-t-on remplacer l'ethique par un dispositif chargé de promouvoir un nouveau projet sur l'homme. Dans cet essai d'Élisabeth Folscheid, Dominique examine la loupe les origines et les fondements problématiques de la bioéthique en mesure les enjeux en revèle les ambiguïtés en dévoile les leurres et met en évidence les collusions qu'elle nourrit entre liberté, utilitarisme, religiosité et fascination pour la Technique.

Long-Term Care and Older People in Western Europe Eloísa del Pino, Francisco Javier Moreno-Fuentes, 2025-06-30 Based on a comparative study covering 15 Western European countries this edited volume examines the responses of long term care homes for older people to the COVID 19 pandemic. It analyses the preparedness of governments and residences and the structural weaknesses revealed and exacerbated by the crisis such as staff shortages, the precariousness of employment in the sector and the deficient coordination between the health and caring sectors. By examining the governance structures of the care home sector and their performance before and during the crisis, the book highlights the institutional, organisational and management challenges facing care homes both in continuing to provide services to an increasingly ageing population and in the event of future public health crises.

Où va l'Algérie, 2001-01-01 L'Algérie vient de traverser une décennie de preuves dont le degré de brutalité et parfois de barbarie, notamment au milieu des années 90, vogue les pires moments de la guerre de décolonisation. Bien que la violence persiste et soit toujours au cœur des débats, il importe de ne pas rester prisonnier d'une approche ou la dramatisation présente la situation d'une façon caricaturale comme une sorte de western où s'affronteraient deux factions armées prenant en otage le reste de la population. Alors que de nombreux facteurs apparaissent mieux aujourd'hui dans leur ampleur et leur complexité, le moment est venu de dresser le bilan des dernières années et de s'interroger sur les perspectives de sortie de crise qui s'ouvrent la société algérienne. Cette démarche est entreprise ici sous trois points de vue. Le premier, politique et institutionnel, tente de cerner l'incertain processus de reconstruction de l'État de démocratisation et de réconciliation. Le second analyse les forces et faiblesses, les ruptures et continuités des programmes d'action économique. Quant au troisième, il explore les nouveaux espaces concrets ou symboliques que s'approprie une société civile forgée par les preuves.

Quel "développement durable" pour répondre à la crise mondiale actuelle ? Alain Massiéra, 2016-01-01 Dans un premier temps cet ouvrage propose une analyse détaillée de l'ensemble des racines profondes de la crise actuelle faisant un état des lieux de tous les problèmes rencontrés dans notre cosystème et dans notre socio-système qui sont en étroites relations d'interdépendance. Dans un second temps, il procède à l'actualisation indispensable de la définition du développement durable et formalise un nouveau paradigme vocation universelle afin de permettre une détermination rationnelle des actions souhaitables à effectuer.

La mode Frédéric Monneyron, 2015-04-09 La mode en tant que concept et phénomène social est une création occidentale, elle est en outre intimement liée à l'avènement exclusivement occidental, lui aussi

de sociét s fond es sur l individu qui se substituent progressivement aux sociét s traditionnelles fond es elles sur le groupe ou la sociét tout enti re partir de ce constat Fr d ric Monneyron propose une double r flexion et d une belle profondeur D abord sur les volutions de la mode il examine minutieusement ses origines socio culturelles et son devenir jusqu nos jours explore les divers contextes dans lesquels elle s panouit analyse ses rapports avec les aspirations populaires bref d voile l ensemble des processus complexes qui gouvernent la pluralit des modes Ensuite sur les valuations de la mode en effet il en vient tudier le discours qui cherche valuer les caract ristiques essentielles de la mode en interroge le sens et la fonction C est ainsi que l on d couvre la philosophie du v tement de Balzac les r flexions sur l l gance de Barbey d Aurevilly les analyses de Baudelaire sur l art ou l artifice de la mode Sans oublier les sociologues Tarde Durkheim K nig Bourdieu les conomistes Veblen les s miologues Barthes et la perspective des femmes sur la mode Hollander Steele Mais ne nous y trompons pas cet essai n a rien d une compilation il participe d une r flexion fondamentale sur la sociologie de la mode et suppose un renversement de perspective lequel implique de poser le v tement non plus comme l ment second accessoire mais comme l ment premier fondateur d terminant les comportements individuels comme les structures sociales puis de consid rer position encore plus iconoclaste que non seulement il ne suit pas l histoire mais qu il la pr c de et que c est peut tre m me en parlant chiffon que commence tout changement social d importance
