JOUR APRÈS JOUR Ruben Ygua, 2025-05-16 Nous avons trop compliqué l'étude du passé en donnant plus d'importance aux points de vue nationalistes religieux et moraux qui placent le fait historique au second plan subordonnant l'interprétation du système qui prétend nous former. Le temps est venu de simplifier et de respecter nos ancêtres en s'efforçant de savoir ce qui s'est réellement passé dans le passé et pas seulement ce que le système essaie de nous informer. Après tant d'années d'étude de l'Histoire j'en suis venu à la conclusion que la meilleure façon de connaître le passé est travers une Chronologie impartiale et objective qui se limite à placer chaque événement à sa place exacte dans le temps relevant l'Histoire sans manipulation ni demi-vérité. Cette chronologie constitue le matériel de référence le plus complet non seulement avec des faits purement politiques tels que la fondation des villes la naissance des royaumes et des empires les découvertes scientifiques et géographiques les catastrophes naturelles et les épidémies mais aussi avec des informations sur les domaines les plus divers de l'activité humaine chimie astronomie géographie mathématiques etc. Parallèlement la chronologie est complétée par des données qui n'appartiennent pas à une date précise mais à une époque entière ce sont des généralités de chaque société des curiosités des coutumes la religion de chaque civilisation des inventions sans date exacte etc. Le résultat de tout cet ensemble est l'une des chronologies existantes les plus complètes périodiquement mise à jour avec les dernières découvertes archéologiques et scientifiques. Un ouvrage de cette ampleur n'a pas pu être publié dans un seul livre je l'ai donc divisé en plusieurs collections et les originaux en espagnol sont en cours de traduction en français anglais et portugais. La chronologie va de la préhistoire nos jours année après année dans la mesure du possible. Pour ceux qui préfèrent une étude plus approfondie et plus détaillée j'ai préparé une deuxième chronologie jour après jour couvrant la période de 1789-1946 divisée en quatre collections.

Le bureau des secrets perdus Jean-François Deniau, 1998 Dans les milieux du renseignement ou des relations internationales le refus obstiné d'admettre la vérité a conduit des faits majeurs civils ou militaires des erreurs spectaculaires et de terribles dénis de justice. Ce livre propose une nouvelle interprétation de plusieurs cas notoires dont l'affaire Dreyfus.

La France des années 1930 Renaud Meltz, 2023-11-17 T00:00:00+01:00 La France des années 1930 dans toutes ses dimensions tant politique qu'économique sociale et culturelle. La France des années 30 est travaillée par un recul inquiet de la confiance en la démocratie libérale. Elle connaît une crise de la représentation parlementaire 6 février 1934 mais se caractérise aussi par l'espoir de lendemains meilleurs et d'une réinvention de la politique le Front populaire voire d'un dépassement des limites de l'homme. Le mot transhumanisme ne naît-il pas en 1937 tandis que le vertige de la modernité technologique inspire les premières pensées écologiques. Une société nouvelle merge où les femmes actives les immigrants les travailleurs coloniaux transforment le visage des villes. Mais la guerre n'est plus seulement un souvenir traumatisant elle devient une menace imminente. Lorsque Roger Martin du Gard apprend qu'elle scelle cette décennie fin de siècle il note Rien ne se passe comme on le prévoyait.
