pivotal figures as well as its more peripheral protagonists their different geographic locations and the extraordinary diversity of their practices that included poetry painting printmaking dance performance theatre textiles readymades photomontage and cinema As the book s authors reveal Dada not only anticipates Surrealism but also foreshadows an extraordinary array of more recent tendencies including action painting conceptual art outsider art performance art environmental and land art In its privileging of chance and automatism its rejection of formal artistic institutions its subversive exploitation of mass media and its constant self reconstitution and self redefinition Dada deserves to be seen as a cultural phenomenon that is still powerfully relevant in the twenty first century
