XaaS: Everything-as-a-service - The Lean And Agile Approach To

Business Growth Shantanu Bhattacharya, Lipika Bhattacharya, 2021-10-13 XaaS Everything as a Service The Lean and Agile Approach to Business Growth takes the reader into the bold new world of pay per use for a product or service From the perspective of the customer the servitization model yields multiple benefits the consumer can try out the product service at a relatively low cost the risk is mitigated capital expenses can be converted into operating expenses it is not needed to forecast how often the product service is used and only parts of the product service needed can be used Similarly a provider can benefit by having a larger market coverage steadier stream of revenues upgrades as and when needed sharing of fixed assets across consumers practicing of value based pricing and unbundling or bundling utility for consumers using appropriate pricing techniques However this nanoization of products services is tricky and has to be designed carefully This book provides a set of recipes to providers to adopt the XaaS model by changing the provider s mindset dividing the product service forces the provider to take a value driven approach to his product service and consequently eliminate all non value added activities The requirements of the XaaS model serve both as an objective to the innovation and internal processes of the provider and as guide to understanding the customer s needs The book also covers data acquisition data analysis and synthesis and data application needs of the XaaS model with simple examples and case studies from the business world of firms that achieve these objectives successfully **Highway Safety Literature** ,1980 **Energy Research Abstracts**

photographs of the drivers and vehicles taken at the time Beyond the Bosphorus records what it was like for ordinary HGV drivers to get involved in something so dramatically different from their everyday working lives in the UK It will be of interest to lorry drivers general vehicle enthusiasts and also those with a historical and social interest in the Middle East alike
