**Tao Te Ching: a Guide to the Interpretation of the Foundational Book of Taoism** Shantena Augusto Sabbadini, 2013-04-08 The Tao Te Ching is the foundational text of Taoism Traditionally considered the work of the Old Master Lao Tzu a senior contemporary of Confucius this 2500 years old text is a poetic and supremely concise formulation of some of humanity s highest wisdom Revered as a basic book of spiritual guidance throughout Chinese history it has become a beloved inspirational work in the West The present work is meant to help the Western reader to penetrate the depth and subtlety of Lao Tzu s wisdom without requiring a knowledge of the Chinese language Readers are offered a choice between various interpretations and are guided in non technical terms to explore how they originate More importantly they are also offered the possibility to hold all the various resonances of the text simultaneously just as a Chinese reader would and thus access the original wealth of meaning in a way no ordinary translation could convey **Agarttha, the Invisible Center** Mircea Alexandru Tamas, 2003 *Le Vrai classique du vide parfait*, 1989 *Hidden Selves* Masud Khan, 2018-03-22 The

hidden selves that Masud Khan reveals to us in this third volume of his psychoanalytic writings are to be understood in two ways Primarily they are those aspects of the self which are inherent in but unsuspected by the individual concerned and which need to be identified if that individual is to achieve a full and healthy self awareness More broadly they are the ingredients of human nature which may not be evident on the surface but which can be brought out through literature or art for example or through the insights gained in psychoanalysis In analysis and over a period of time both analyst and patient discover parts of their personality that were unknown to each other at the start The person is not just a single self but a collage of hidden selves and one of the goals of psychoanalysis is to find out how this collage functions for the individual concerned whether through symptomatology or through introspection
