Programs for Urban School Districts Frank Brown, Richard C. Hunter, 2006-07-04 The No Child Left Behind NCLB Act is designed to close the achievement gap between disadvantaged and disadvantaged children through its Title I program This book explores models to achieve equity in Title I schools and defines what is required of states in Title I schools It examines how each state implements NCLB accountability standards *Reevaluating Evaluation* Laura M. Desimone, 2018-12-07 In the context of the evolution of education program evaluation and the current emphasis on scientific precision this special issue presents several of the challenges to program evaluation that scholars are facing today In addition it shares recent insights and experiences that will contribute to continued improvement of program evaluation and responds to the call for more exactness without losing sight of the lessons learned from evaluation over the past several decades The eight papers address five main areas evaluation design instrumentation implementation politics and analysis As a whole this issue is designed shed light on the five issues as well as provide information useful for those interested in increasing the rigor of education research to increase the ability to improve schools *A Level Playing Field* Jane Fowler Morse, 2012-02-01 In this timely work Jane Fowler Morse reviews the history of school finance litigation in the United States and then examines recent legal and political struggles to obtain equitable school funding in New York Vermont and Ontario These three places have

employed strikingly different strategies to address this issue and Morse analyzes lessons learned at each that will benefit both public officials and citizens interested in seeking reform elsewhere Drawing on writers from Aristotle to Cass Sunstein and Martin Luther King Jr she also explores the concepts of social justice and equity highlighting the connections between racism poverty and school funding The result is a passionate plea for equitable funding of public education nationwide to instantiate the ideal of liberty and justice for all

Mandate Madness James T. Bennett, 2017-07-05 What do drivers licenses that function as national ID cards nationwide standardized tests for third graders the late unlamented 55 mile per hour speed limit the outlawing of the eighteen year old beer drinker and the disappearing mechanical lever voting machine have in common Each is the product of an unfunded federal mandate a concept that politicians of both parties profess to oppose in theory but which in practice they often find irresistible as a means of forcing state and local governments to do their bidding while paying for the privilege Mandate Madness explores the history debate and political gamesmanship surrounding unfunded federal mandates concentrating on several of the most controversial and colorful of these laws The cases hold lessons for those who would challenge current or future unfunded federal mandates James T Bennett also examines legislative efforts to rein in or repeal unfunded federal mandates Finally he reviews the treatment of unfunded mandates by the federal courts Those who find wisdom in America's traditional federalist political arrangement maintain perhaps with more wishfulness than realism that the unfunded federal mandate has not yet joined death and taxes as an immovable part of the modern political landscape
