Kaitano Dube

Vut Application For 2016:

Redefining Education and Development Kaitano Dube, 2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book's blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development

Trade Policy Review, 2018 *E-Learning in the Middle East and North Africa (MENA) Region* Alan S. Weber, Sihem Hamlaoui, 2018-02-27 In the last decade due to factors of ICT infrastructural and broadband maturation rising levels of educational attainment and computer literacy and diversification strategies e learning has exploded in the Middle East and North Africa MENA region However significant barriers remain in the region's e learning development lack of research on outcomes and effectiveness paucity of Arabic language learning objects monopolies and high cost of telecommunications cultural taboos accreditation censorship and teacher training This unique volume is the first comprehensive effort to describe the history development and current state of e learning in each of the 20 MENA countries from Algeria to Yemen Each entry is expertly written by a specialist who is acutely familiar with the state of e learning in their respective country and concludes with a bibliography of key reports peer reviewed books and articles and web resources E Learning in the Middle East and North Africa MENA proves itself as a vital compendium for a wide readership that includes academics and students transnational program directors international education experts MENA government departments commercial vendors and investors and ICT development and regulatory agencies involved in

e learning in the Middle East **Geometry of CR-Submanifolds and Applications** Bang-Yen Chen, Mohammad Hasan Shahid, Gabriel-Eduard Vilcu, 2025-08-29 This book attempts to present a comprehensive survey of the geometry of CR submanifolds. The theory of submanifolds is one of the most interesting topics in differential geometry. The topic is introduced by Aurel Bejancu as a generalization of holomorphic and totally real submanifolds of almost Hermitian manifolds in 1978. Afterward, the study of CR submanifolds became a very active research subject. Organized into 22 chapters, the book starts with basic knowledge of Riemannian manifolds and submanifolds, almost Hermitian manifolds and their subclasses: Hopf fibrations, symmetric spaces, and a general inequality for submanifolds in complex space forms in Chaps 1 and 2. Later, it presents the main results on CR submanifolds in Kähler manifolds, the basic inequalities associated with CR submanifolds in Kähler manifolds, and several theories and results related to Kähler manifolds in Chaps 3–11. Further, the book discusses the basics of almost contact metric manifolds and their subclasses: CR submanifolds of Sasakian, trans-Sasakian, and quasi-Sasakian manifolds, with a particular attention on the normal CR submanifolds in Chap 12. It also investigates the contact CR submanifolds of S-manifolds, the geometry of submersions of CR submanifolds, and the results on contact CR warped product submanifolds in Chaps 16–18, 20. In Chapter 19, we discuss submersions of CR submanifolds. The book also presents some recent results concerning CR submanifolds of holomorphic statistical manifolds. In particular, it gives the classification of totally umbilical CR statistical submanifolds in holomorphic statistical manifolds, as well as a Chen–Ricci inequality for such submanifolds. Chapter 21. In the last chapter, we present results on CR submanifolds of indefinite Kähler manifolds and their applications to physics.

Recent Advances in Soft Computing Radek Matoušek, 2018-08-04 This book presents selected papers from the MENDEL conference that was held in Brno, Czech Republic, in June 2017. Consisting of two parts, the book discusses recent advances in soft computing, including intelligent image processing. Part 1 addresses evolutionary computing, swarm intelligence, metaheuristics, and optimization. Part 2 then focuses on neural networks, machine learning, self-organization, fuzzy systems, and advanced statistics. The MENDEL conference was established in 1995 and it bears the name of the scientist and Augustinian priest Gregor J. Mendel, who discovered the famous Laws of Heredity. The main aim of the conference was to create a regular opportunity for students, academics, and researchers to exchange their ideas and novel research methods.

The Criminalization of States Bruce Bagley, Jorge Chabat, Jonathan D. Rosen, 2019-05-23 This volume examines the relationship between states and organized crime. It seeks to add to the theoretical literature for analyzing the criminalization of the state. The volume also explores the nature of organized crime in countries throughout the Americas, from Central America to the Southern Cone.

Republic of Palau International Monetary Fund, Asia and Pacific Dept, 2019-02-05 This Article IV Consultation discusses with the Republic of Palau, focused on ensuring long-term fiscal sustainability, making potential growth more resilient and sustainable, and preserving financial stability and facilitating credit extension. The consultation discussions also highlight that the main economic policy priorities for Palau are to develop a

medium term fiscal framework and strategy to help manage fiscal risks and the expiration of the Compact grants to raise public investment to protect social spending to make growth more resilient and sustainable through other reforms and to preserve financial stability and integrity The current fiscal policy approach is based on the legal requirement to maintain a balanced or surplus cash flow for various parts of the budget While this fiscal policy strategy has resulted in overall budget surpluses and a decline in net debt the move to a medium term fiscal framework and strategy would help Palau to address future challenges
