Software applications have taken over our lives We use and are used by software many times a day Nevertheless we know very little about the invisibly ubiquitous workers who write software Who are they and how do they perceive their own practice How does that shape the ways in which they collaborate to build the myriad of apps that we use every day Coderspeak provides a critical approach to the digital transformation of our world through an engaging and thoughtful analysis of the people who write software It is a focused and in depth look at one programming language and its community Ruby based on ethnographic research at a London company and conversations with members of the wider Ruby community in Europe the Americas and Japan This book shows that the place people write code the language they write it in and the

stories shared by that community are crucial in questioning and unpacking what it means to be a coder Understanding this social group is essential if we are to grasp a future and a present in which computer programming increasingly dominates our lives Praise for Coderspeak Heurich perfectly captures the generous camaraderie quirky spirit and intellectual curiosity at the heart of the Ruby world Packed with tidbits of Ruby history code snippets and fascinating conversations this book has something to teach every Rubyist Jemma Issroff Ruby Core Team *Ruby per applicazioni web* Marco Ceresa,2006
