Point Pelee Bird Report:

Birding at Point Pelee Henrietta O'Neill, 2006-10-03 A birder's history of one of Canada's most famous birding spots. Birding at Point Pelee traces Point Pelee's story from the 1870s to the national park's establishment in 1918 to present day when as many as 50 000 birders visit the park in May during spring migration. The book portrays the backdrop against which the park was evolving: the scientific discoveries and changes in ornithological methods through the decades; early specimen collecting; bird banding; the development of binoculars and telescopes; the growth of nature photography; the shift from birding as science to birding as hobby; as well as philosophical shifts and debates about amateur versus professional credentials and the balance to strike between conservation and recreation. Thoroughly researched and lively, the story takes readers from the earliest days when the birders were few but fervent to today's international tourism phenomenon. **The Birds of Point Pelee** Percy Algernon Taverner, Bradshaw Hall Swales, 1907 **Report of the Commissioner** Canada.
