Viewpoint Relativism Antti Hautamäki, 2020-01-28 This book offers new insights into truth knowledge and reality It details a unique approach to epistemological relativism based on the concept of points of view In a point of view an aspect represents an object for a subject By applying this concept of points of view the author develops a consistent and adequate form of relativism called viewpoint relativism according to which epistemic questions like Is X true or justified or existing are viewpoint dependent The monograph examines central issues related to epistemological relativism It analyzes major arguments pro and con from different opinions The author presents the arguments of well known philosophers These include such thinkers as Paul Boghossian John Dewey Nelson Goodman Martin Kusch C I Lewis John MacFarlane Hilary Putnam W V O Quine Richard Rorty John Searle and Ludwig Wittgenstein In the process the author deconstructs the standard account of correspondence theory of truth Viewpoint relativism is a moderate relativism which is not subjected to standard criticism of extreme relativism This book argues that knowledge creation presupposes openness to different points of view and their comparison It also explores the broader implications of viewpoint relativism into current debate about truth in society The author defends a critical relativism which accepts pluralism but is critical against all points of view In the conclusion he explores the relevance of viewpoint relativism to democracy by showing that the main threat of modern democratic society is not pluralism but absolutism and fundamentalism

Kierkegaard's Incarnational Mission Michio Ogino, 2025-06-30 One lacuna in S ren Kierkegaard scholarship is in analyzing his works with his self described identity as a missionary to Christendom in mind Challenging the international connotation of the term missionary Dr Michio Ogino examines Kierkegaard s works in which he identified himself as a missionary writer to reveal how he considered being a missionary an integral part of being a Christian By chronologically and empirically examining the writings of S ren Kierkegaard Dr Ogino argues that Kierkegaard not only proclaimed Jesus Christ in his homeland but did so in a manner similar to how Christ had done on earth incarnating the Christian message for his contemporaries Through this provocative exploration Ogino lays out how the application of Kierkegaardian mission can help to overcome five recognized barriers in Japanese evangelization Kierkegaard scholars and readers will find a new understanding of the motivations and reasoning behind his works and missionaries not only to Japan but all nations will be encouraged in how his approach can be applied in their context
