fascinating and far reaching account of working as a government surveyor in the southern Utah desert In it he describes his search for a place in the natural world beginning with an afternoon spent tracking down a lost crew member who cracked up

on the job and concluding with his supervising a group of at risk teenagers on a backpacking trip in the Escalante wilderness In between he depicts a range of experiences in and outside nature including hostile barroom encounters between surveyors

and tourists weekends spent climbing Navajo Mountain and floating what remains of Glen Canyon and late night arguments concerning the meaning and purpose of nature with the eccentric polygamist who ran the town in which the surveyors

parked their bunk trailers Although this work is autobiographical Shooting Polaris is so much more It is a reflection on man s relationship to nature and work American history and the movement into the West the desire to impose order and the
