Pwani University Mombasa Campus:

The Status of Student Involvement in University Governance in Kenya Mulinge, Munyae M., Arasa, Josephine N., 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya

Citizen Participation in Decision Making Njogu, Kimani, 2014-01-16 This book is a result of public dialogue forums in pursuit of accountable and transparent governance in Kenya organized by Twaweza Communications with the support of Ford Foundation From the convenings it was evident that the stability of Kenya will be driven by the extent to which citizens feel fully included in the development agenda Quite often political leaders view the role of citizens in governance as restricted primarily to their participation in the electoral process This narrow view has led to arrogance and total disregard of citizens after poll results are announced Under the new political dispensation heralded by the promulgation of the Constitution of Kenya on August 27 2010 this trend must change and the sovereignty of the people in theory and practice must be reinscribed The publication raises important issues worth serious reflection It also suggests ways in which citizens can better participate in their own transformation Case studies highlighted in the book exemplify the importance building the Kenyan nation by addressing patterns of exclusion and glaring inequalities The topics covered include multipartism natural resource governance gender politics of identity marginalization of Coastal Kenya youth empowerment and investing in knowledge economy among others The book is a valuable addition to our understanding of the root political and social anxieties in Kenya and how these could be ameliorated

Oxford Handbook of Kenyan Politics explains these developments and many more drawing together 50 specially commissioned chapters by leading researchers The chapters they have contributed address a range of essential topics including the legacy of colonial rule ethnicity land politics devolution the constitution elections democracy foreign aid the informal economy civil society human rights the International Criminal Court the growing influence of China economic policy electoral violence and the impact of mobile phone technology In addition to covering some of the most important debates about Kenyan politics the volume provides an insightful overview of Kenyan history from 1930 to the present day and features a set of chapters that review the impact of devolution on regional politics in every part of the country
