culturally inclusive curriculum Islam and the Arts Islam and the Sciences and how to support schools in curriculum design and implementation The final section features the authentic voice of young Muslims as they express their views on schools on culture and on terrorism The book is designed for everyone involved in schools and children s services and is an original and invaluable resource for dealing with tensions between groups in schools and in the schools communities It is essential reading for everyone in education who wants to meet the needs of their Muslim students and help build a more cohesive society **The academy** ,1894 *The Mathematics Teacher (India)* . ,1971 **Styles and Strategies for Teaching High**
