LABORATORY MANUAL PALLAB BASU,2016-01-01 *Vignette Based Multiple Choice Questions In Medical Biochemistry* Dr. Ranjit Patil,Dr. Kavindra Borgaonkar, Among the wide variety of written methods of assessment multiple choice questions MCQs especially the single best option variety remain the staple of examinations administered to medical students MCQs are used extensively by medical schools and also in the initial steps of examinations by licensing bodies Their logistical advantage of allowing testing of large number of students and broad sampling of topics in a relatively short time remains unchallenged by any other formats of written examinations The format and wording of the stem of a MCQ play an essential role in determining what is being assessed In its simplest form a MCQ can ask about an isolated fact Such a context free MCQ tests rote knowledge only Higher order skills such as interpretation and problem solving are best tested using a context rich stem in which the question is embedded in a meaningful context In medical subjects context enrichment most often takes the form of a clinical vignette The advantages of enriching the stem with a clinical vignette are two fold First it allows for the assessment of higher order cognitive skills Second information is thought to be better recalled when the learning context is similar to retrieval context In this book MCQs are based on clinical vignettes The clinical context will increase commitment of the student to acquire and retain basic knowledge of medical biochemistry *Multiple Choice Questions in General Surgery* Kefah M. Mokbel,1997 In late 1996 the format of the examinations for surgical trainees in the UK will change The existing FRCS diploma examination will be replaced by a new MRCS Membership of the Royal College of Surgeons qualification These changes will be phased in over a period of time The first major change will be in the existing Part I Applied Basic Sciences examination which will now consist of two MCQ papers covering both basic and clinical aspects of surgery
