Posthuman Gaming Poppy Wilde,2023-09-21 *Posthuman Gaming* Avatars Gamers and Entangled Subjectivities explores the relationship between avatar and gamer in the massively multiplayer online roleplaying game World of Warcraft to examine notions of entangled subjectivity affects and embodiments what it means and how it feels to be posthuman With a focus on posthuman subjectivity Wilde considers how we can begin to articulate ourselves when the boundary between self

and other is unclear Drawing on fieldnotes of her own gameplay experiences the author analyses how subjectivity is formed in ways that defy a single individual notion of self and explores how different practices feelings and societal understandings can disrupt strict binaries and emphasise our posthumanism She interrogates if one can speak of an I in the face of posthuman multiplicity before exploring different analytical themes beginning with how acting theories might be posthumanised and articulate the relationship between avatar and gamer She then defines posthuman empathy and explains how this is experienced in gaming before addressing the need to account for boredom the complexity of nostalgia and ways death and loss are experienced through gaming This volume will appeal to a broad audience and is particularly relevant to scholars and students of cultural studies media studies humanities and game studies [The Virtual Future](#) William Sims Bainbridge, 2011-09-06 The newest communication technologies are profoundly changing the world's politics economies and cultures but the specific implications of online game worlds remain mysterious The Virtual Future employs theories and methods from social science to explore nine very different virtual futures The Matrix Online Tabula Rasa Anarchy Online Entropia Universe Star Trek Online EVE Online Star Wars Galaxies World of Warcraft Burning Crusade and The Chronicles of Riddick Each presents a different picture of how technology and society could evolve in coming centuries but one theme runs through all of them the attempt to escape the Earth and seek new destinies among the stars Four decades after the last trip to the moon a new conception of spaceflight is emerging Rather than rockets shooting humans across vast physical distances to sterile rocks that lack the resources to sustain life perhaps robot space probes and orbiting telescopes will glean information about the universe that humans can then experience inside computer generated environments much closer to home All nine of these fantastically rich multiplayer masterpieces have shown myriads of people that really radical alternatives to contemporary society could exist and has served as a laboratory for examining the consequences Each is a prototype of new social forms a utopian subculture and a simulation of technologies that have yet to be invented They draw upon several different traditions of science fiction and academic philosophy and they were created in several nations By comparing these nine role playing fantasies we can better consider what kind of world we want to inhabit in the real future
