No One Left Behind Darrell J. Fasching,2011-07-15 1 You have heard it said that on the day of judgment only Christians will be saved and all others will be consigned to eternal damnation but I say to you that the gospel proclaims salvation for the whole human race 2 You have heard it said that non Christians are strangers who will not enter the Kingdom of God but I say to you that God enters our lives through the very presence of the stranger 3 You have heard it said that heretics and sinners will have no place in the Kingdom of God but I say to you that to reject even the least of these is to reject God and Gods messiah 4 You have heard it said that human beings can be saved in no other name than that of Jesus but I say to you that the name Jesus means we are saved in the name of a God who cannot be named or imaged 5 You have heard it said that only a chosen remnant can be saved but I say to you that a saving remnant saves not itself but the whole human race of which it is a part 6 You have heard it said that in the final judgment many will be consigned to the eternal fires but I say to you Gods judgment is a refining fire which transforms and saves rather than destroys The final truth is that our God is the savior of the whole human race and especially all believers 1Timothy 4 10 *World Religions in America, Fourth Edition* Jacob Neusner,2009-10-07 The fourth edition of World Religions in America continues its lauded tradition of providing students with reliable and nuanced information about America s religious diversity while also reflecting new developments and ideas Each chapter was updated to reflect important changes and events and current statistics and information New features include a timeline of key events and people for each tradition sidebars on major movements or controversies personal stories from members of various faiths a theme based organization of subjects more subheads three new chapters exploring America s increasing religious diversity and suggestions for further study

Hispanic Muslims in the United States Victor Hugo Cuartas,2020-03-31 The empirical case in this study is that of the Hispanic Catholic converts to Islam in

the Washington DC Metropolitan and New Jersey areas of the United States The central research question is To what extent do Hispanic Muslim converts play a role in making different choices regarding religious commitment and practice The argument is that not only do both the more and less active converts play a central role in making choices during the pre affiliation and post affiliation stages but that these choices can often be strategic in nature as they practice the new religion in the United States These choices are shaped by multiple factors This contributes to a new understanding of the prevailing debates among Muslims in Europe and the United States on the nature of Muslim minorities in the West that Muslims here are not merely transplanted but are active participants of diverse expressions of local Islam The evidence in my research shows that being less active does not mean converts do not play a role or make choices Both more active and less active converts make choices based on multiple factors This is especially significant as the main aim of this thesis is to show that the converts make choices and play a role in the post affiliation stage and that these often have strategic elements

Overcoming Orientalism Tamara Sonn, 2021-05-28 Orientalism is the term applied to scholarship that reduces Islam and Muslims to stereotypes of ignorance and violence in need of foreign control It has been used to rationalize Europe's colonial domination of most of the Muslim world and continued American led interventions in the post colonial period In the past 30 years it has been represented by claims that a monolithic Islam and equally monolithic West are distinct civilizations sharing nothing in common and indeed involved in an inevitable clash from which only one can emerge the winner Most recently it has appeared in Alt Right rhetoric Anti Muslim sentiment measured in public opinion polls hate crime statistics and legislation is reaching record levels Since John Esposito published his first book nearly 40 years ago he has been guiding readers beyond such politically charged stereotypes The essays in this volume highlight the contributions of scholars from a variety of disciplines who like and often inspired by John Esposito recognize the misleading and politically dangerous nature of Orientalist polarizations They present Islam as a multi faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries The contributors follow Esposito's lead stressing the profound commonalities among religions and replacing Orientalist discourse with holistic analyses of the complex historical phenomena that affect developments in all societies In addition to chapters focusing on diversity among Muslims and interfaith relations this collection includes chapters assessing the secular bias at the root of Orientalist scholarship and contemporary iterations of Orientalism in the form of Islamophobia
