which only one can emerge the winner Most recently it has appeared in Alt Right rhetoric Anti Muslim sentiment measured in public opinion polls hate crime statistics and legislation is reaching record levels Since John Esposito published his first book nearly 40 years ago he has been guiding readers beyond such politically charged stereotypes The essays in this volume highlight the contributions of scholars from a variety of disciplines who like and often inspired by John Esposito recognize the misleading and politically dangerous nature of Orientalist polarizations They present Islam as a multi faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries The contributors follow Esposito s lead stressing the profound commonalities among religions and replacing Orientalist discourse with holistic analyses of the complex historical phenomena that affect developments in all societies In addition to chapters focusing on diversity among Muslims and interfaith relations this collection includes chapters assessing the secular bias at the root of Orientalist scholarship and contemporary iterations of Orientalism in the form of Islamophobia

No One Left Behind Darrell J. Fasching, 2011-07-15 1 You have heard it said that on the day of judgment only Christians will be saved and all others will be consigned to eternal damnation but I say to you that the gospel proclaims salvation for the whole human race 2 You have heard it said that non Christians are strangers who will not enter the Kingdom of God but I say to you that God enters our lives through the very presence of the stranger 3 You have heard it said that heretics and sinners will have no place in the Kingdom of God but I say to you that to reject even the least of these is to reject God and Gods messiah 4 You have heard it said that human beings can be saved in no other name than that of Jesus but I say to you that the name Jesus means we are saved in the name of a God who cannot be named or imaged 5 You have heard it said that only a chosen remnant can be saved but I say to you that a saving remnant saves not itself but the whole human race of which it is a part 6 You have heard it said that in the final judgment many will be consigned to the eternal fires but I say to you Gods judgment is a refining fire which transforms and saves rather than destroys The final truth is that our God is the savior of the whole human race and especially all believers 1 Timothy 4 10 , *The Evangelical Dictionary of World Religions* H. Wayne House, 2019-02-19 With all of the different religions sects denominations and belief systems out there it can be difficult to separate the facts from mere opinion especially if one is relying solely on online sources which may or may not be vetted and which often have an ideological or political slant to them How can we truly understand if we cannot even be sure we are getting the facts straight In this comprehensive resource more than 75 evangelical scholars offer a thoroughly researched guide to Christianity other world religions and alternative religious views including entries on movements theological terms and major historical figures Perfect for pastors students and anyone who wants ready access to information on today s religious landscape

The Muslim Majority Robin Hadaway, 2021-09-15 More than 70 percent of Muslims worldwide practice folk Islam a syncretistic mix of theologically orthodox Islam and traditional religious beliefs and practices The Muslim Majority is unlike many published works on evangelism to Muslims which argue for either apologetic or contextualized bridge approaches These approaches are often ineffective in reaching adherents of popular Islam Instead author and missiologist Robin Hadaway outlines a contextual approach that addresses the unique perspective of popular Islam Hadaway explains the differences between folk Islam and orthodox Islam and explores best practices for reaching the vast majority of Muslims with the gospel of Jesus Christ

The Invention of World Religions Tomoko Masuzawa, 2024-05-31 The idea of world religions expresses a

vague commitment to multiculturalism Not merely a descriptive concept world religions is actually a particular ethos a pluralist ideology a logic of classification and a form of knowledge that has shaped the study of religion and infiltrated ordinary language In this ambitious study Tomoko Masuzawa examines the emergence of world religions in modern European thought Devoting particular attention to the relation between the comparative study of language and the nascent science of religion she demonstrates how new classifications of language and race caused Buddhism and Islam to gain special significance as these religions came to be seen in opposing terms Aryan on one hand and Semitic on the other Masuzawa also explores the complex relation of world religions to Protestant theology from the hierarchical ordering of religions typical of the Christian supremacists of the nineteenth century to the aspirations of early twentieth century theologian Ernst Troeltsch who embraced the pluralist logic of world religions and by so doing sought to reclaim the universalist destiny of European modernity *Faith Seeking Understanding, Fourth ed.* Daniel L. Migliore, 2023-05-31 An authoritative and beloved textbook updated for the current generation of theology students Daniel L. Migliore's classic theology textbook returns in a new edition revised and supplemented with fresh material *Faith Seeking Understanding* covers fundamental topics for budding theologians from biblical hermeneutics to the incarnation to the life of faith As in previous editions the material culminates in four imaginative dialogues between prominent thinkers to illustrate major theological debates In addition to updates throughout the text the fourth edition also includes a new introduction and an additional chapter on Christology Students will appreciate the textbook's accessible style comprehensive reading recommendations and glossary of theological terms *Fabricating Religion* Russell T. McCutcheon, 2018-09-24 The revised essays collected here four of which are published for the first time continue a longstanding argument made by McCutcheon and others that the study of religion would benefit from self-conscious scrutiny of its tools the interests that may drive them and the effects that might follow their use The chapters examine a variety of contemporary sites in the modern field where this thesis can be argued whether involving the anachronistic use of the category religion when studying the ancient world to current interest in so-called critical religion or critical realist approaches Moreover contrary to some past characterizations of such critiques a constructive way forward for the field is once again recommended and at several sites exemplified in detail redescribing not only religion as something ordinary but also our tendency to create the impression of exceptional and thus set apart things places and people Aimed at scholars and students alike the book is an invitation to examine our own scholarly practices and thereby take a more active role in shaping the field in which we carry out our work as scholars of this thing we call religion **Science and the World's Religions** Patrick McNamara Ph.D., Wesley J. Wildman, 2012-07-19 This trio of volumes contains essays that explore vital existential moral or metaphysical issues surrounding the relationship between the sciences and the world's religions In *Science and the World's Religions* experts with scientific and religious backgrounds explore vital existential or practical issues drawing on whatever sciences are

relevant and engaging at least two religious traditions The multidisciplinary essays exhibit rigorous intellectual scholarly thinking but are written to clearly communicate to educated adult lay readers The first volume addresses questions about the origins and purpose of the cosmos and the human project The second volume investigates the roles of religion and spirituality in human existence considering issues ranging from the brain and religious experience to the human life cycle The third volume tackles controversies in which both religion and science are stakeholders showing how both can deepen understanding and enrich human experience Together these three books present readers with powerful tools that enable them to think through the challenge of integrating science with their religious beliefs and spiritual practices *John Hick's Pluralist Philosophy of World Religions* Paul Rhodes Eddy, 2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in the theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways **Religious Experience in Contemporary Taiwan and China** 曹英, 2013-12-01 Religious Experience in Contemporary Taiwan and China helps social scientists and all religion scholars to rediscover the importance of religious experiences for multiple world religions Combining a diverse array of survey items with thousands of candid narratives conducted in Taiwan the authors provide a depth and breadth that can't be matched by previous work The nationally representative surveys for Taiwan and China offer a broad overview of how religion is experienced in the culture how these experiences vary for each of the many religious and even non religious groups and how they vary between China and Taiwan From the Preface by Roger Finke
