Azeiteiro, Fátima

Alves, Petra Molthan-Hill, 2017-02-24 This Handbook approaches sustainable development in higher education from an integrated perspective addressing the dearth of publications on the subject. It offers a unique overview of what universities around the world are doing to implement sustainable development i.e. via curriculum innovation, research activities or practical projects and how their efforts relate to education for sustainable development at the university level. The Handbook gathers a wealth of information, ideas, best practices and lessons learned in the context of executing concrete projects and assesses methodological approaches to integrating the topic of sustainable development in university curricula. Lastly, it documents and disseminates the veritable treasure trove of practical experience currently available on sustainability in higher education. Molecular Mechanisms of Action of Functional Foods and Nutraceuticals for Chronic Diseases Shima Abdollahi, Syam Mohan, Yashwant V. Pathak, 2023-04-19

There has been a global rise in the incidence of chronic illnesses which may be partially attributed to the lengthening of the average human lifespan. Functional foods and nutraceuticals have a potential role to play in the development and maintenance of health. They can assist the body in its battle against inflammation and chronic illnesses. Molecular Mechanisms of Action of Functional Foods and Nutraceuticals for Chronic Diseases addresses the effects and mechanism of functional foods in relation to chronic diseases such as obesity, cardiovascular diseases, diabetes, cancer, etc. This volume, like the first volume Applications of Functional Foods and Nutraceuticals for Chronic Diseases, inspires new thought processes and a paradigm shift in research and development. Key Features: Discusses the molecular mechanism of action; the range of toxicities exerted by these food components for functional foods for addressing chronic conditions; Enhances scientists and industrial personnel knowledge of functional foods and in the management of chronic diseases; Presents research on the role of functional foods/nutraceuticals in preventing and treating chronic diseases through epigenetic modulation; Explores various subjects such as epigenetics, immunological, metabolic, technological and neurodegenerative aspects affected by functional foods in chronic diseases. The world's leading wellness centers for chronic diseases are using functional foods and nutraceuticals in their practice and discovering their useful applications and this second of two volume set is another great reference for practitioners, scientists and clinicians in the management of chronic diseases. Contributors hail from different geographical locations around the world and have many years of research and scholarly experience in functional foods, nutraceuticals and biology. **Business Challenges in the**
