Churchill, 2015-03-27 This volume considers the confluence of World History and historical materialism with the following guiding question in mind given developments in the field of historical materialism concerned with the intersection of race gender labour and class why is it that within the field of World History historical materialism has been marginalized precisely as World History orients toward transnational socio cultural phenomenon micro studies or global histories of networks Answering this question requires thinking in an inter related manner about both the development of World History as a

discipline and the place of economic determinism in historical materialism This book takes the position that historical materialism as applied to the field of World History needs to be more open to the methodological diversity of the materialist tradition and to refuse narrowly deterministic frameworks that have led to marginalization of materialist cultural analysis in studies of global capitalism At the same time World History needs to be more self critical of the methodological diversity it has welcomed through a largely inclusionary framework that allows the material to be considered separately from cultural social and intellectual dimensions of global processes

Union is widely viewed as the end of the Cold War Frankly speaking though the argument that Cold War is a continuous event even till this day is not something made up by some random nobodies in the basement of their parent s house but something that is being brought up from time to time by different critics across the world It is often referred to as The Second Cold War or the New Neo Cold War often involving in the United States China and Russia the primary successor state of the former Soviet Union As a resident of Hong Kong a city which is very close with the states mentioned above be it economical or geographical it would be necessary for us to acknowledge the influence and consequences of the actions in this new Silent War in order for us to cope with the events and develop alternative ways to survive in this dangerous and hazardous world Submission of original scholarly research articles is open to undergraduates from students at HKU For further information feel free to communicate with the History Society at hiso connect hku hk
