A Short Introduction to World Religions Tim Dowley, 2018-07-01 This leading textbook for world religions is now available in a more concise version. Many of the features of *Introduction to World Religions* are retained in this volume but with focus on the religious traditions themselves. The section on religions of antiquity has been removed and key content in each chapter streamlined to increase accessibility for students in their study and research of the world's religious traditions. Known and valued for its balanced approach, this book offers an arresting layout with rich illustrations. It continues to provide broad coverage of diverse religions including indigenous religions, Hinduism, Buddhism, Jainism, Judaism, Christianity, Islam, Sikhism, and Chinese, Korean, and Japanese religions. The user-friendly content is enhanced by charts of religious festivals, historic timelines, updated maps of the world's religions, and a useful glossary. Both historical overviews and modern perspectives for each religion are included. This edition includes several updates made to the new third edition, including a new design, a new section on women and religion, and a newly revised section on religions in today's world.

Museums of World Religions Charles Orzech, 2020-05-14 Critically examining the notion of world religions, Charles D. Orzech compares five purpose-built museums of world religions and their online extensions. Inspired by the 19th and 20th-century discipline of comparative religion, these museums seek to promote religious tolerance by representing religious diversity and by arguing for underlying kinship among religions. From locations in Europe (Marburg, Glasgow, and St. Petersburg) to North America (Quebec) to Asia (Taipei), each museum advances a particular cultural history. This book shows how the curation of the objects they contain shapes public perceptions of religion, giving material form to the discourses about religion and world religions. Raising important questions about religion and secularity, museum displays and religious piety, *Museums of World Religions* questions the ideology that informs these museums. Building on recent anthropological work on the agency of religious objects, the author critiques these museums and suggests new approaches to displaying the matter of religion.

Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion? If so, why do most Chinese think it isn't? From ancient Confucian temples to nineteenth-century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade, this book traces the birth and growth of the idea of Confucianism as a world religion. The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion. Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world, not only in the West but also in China, where the politics of Confucianism has become important to the present regime in a time of transition. Contested histories of Confucianism are vital signs of social and political change. Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples. While the Chinese government turns to Confucianism to justify its political agenda, Confucian activists

have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century **Our Religions** Arvind Sharma,2011-03-15 Each religion is described by someone who is committed to that religion but who is at the also fully at home in the academic study of religion John Hick author of An Interpretation of Religion Human Responses to the Transcendent Leading experts in the great living religions present their own faith traditions The volume surveys the history and teachings of Hinduism Buddhism Confucianism Taoism Judaism Christianity and Islam and describes the issues these religious traditions face today Thought provoking and soul stretching The Gazette Montreal Viewpoints enough to keep the reader alert and engrossed Christian Century Splendid in every respect Huston Smith author of The World s Religions **The Rise and Fall of the Amazon Rubber Industry** Stephen Nugent,2017-12-05 In this engaging book Stephen Nugent offers an in depth historical anthropology of a widely recognised feature of the Amazon region examining the dramatic rise and fall of the rubber industry He considers rubber in the Amazon from the perspective of a long term extractive industry that linked remote forest tappers to technical innovations central to the industrial transformation of Europe and North America emphasizing the links between the social landscape of Amazonia and the global economy Through a critical examination focused on the rubber industry Nugent addresses myths that continue to influence perceptions of Amazonia The book challenges widely held assumptions about the hyper naturalism of the lost world of the Amazon where the challenge of the tropics is still to be faced and the frontiers of development are still to be settled It is relevant for students and scholars of anthropology Latin American studies history political ecology geography and development studies *AMAZON COVENANT 2020 TRUMP and BOLSONARO* RANCE DEWITT,2019-10-23 Texas boy attends university in Southern Mexico 1969 and travels with the Indians on horseback to study the works of Anthropologist Carlos Castaneda Returns to baptism with Billy Graham at Texas Stadium Studies Edgar Cayce and Christian Science and has a personal encounter with Jesus Christ like Joseph Smith Attending all Protestant denominations for 20 years is baptized w Mormons and then goes to the Catholic Church for baptism with Ecuador s Archbishop because in 30 countries of travel by car truck and bus he met Pope John Paul II and sat together for an hour in Christchurch in 1986 A 3rd degree Knight and a 32nd degree Mason with a degree in Geology St John Paul sent him on a mission from teaching English in Spain back to South America to three presidential families and one wife and two engagements Here his prophetic message for A New World Covenant begins with President Trump and President Bolsonaro of Brazil uniting the peoples from Alaska to Argentina with a new USMCA Monroe Doctrine **Amazon Ecosystem - Past Discoveries and Future Prospects** Heimo Mikkola,2024-03-06 The Amazon region is the largest river basin and rainforest ecosystem in the world It contains billions of trees which are a vital carbon store to slow down global warming Amazonia is
