Selected Executive Session Hearings of the Committee, 1943-50 United States. Congress. House. Committee on International Relations, 1976 **Javier Marías's Debt to Translation** Gareth Wood, 2012-05-03 Javier Marías has explained many times that working as a translator of literary works from English into Spanish helped shape him as a writer This study explores those claims by analysing two things firstly his translations themselves and secondly seeing how those translations have left discernible traces in his own fiction **World Trade Information Service**, 1960 **Soft War** Michael L. Gross, Tamar Meisels, 2017-06-09 Just war theory focuses primarily on bodily harm such as killing maiming and torture while other harms are often largely overlooked At the same time contemporary international conflicts increasingly involve the use of unarmed tactics employing softer alternatives or supplements to kinetic power that have not been sufficiently addressed by the ethics of war or international law Soft war tactics include cyber warfare and economic sanctions media warfare and propaganda as well as non violent resistance as it plays out in civil disobedience boycotts and lawfare While the just war tradition has much to say about hard war bullets bombs and bayonets it is virtually silent on the subject of soft war Soft War The Ethics of Unarmed Conflict illuminates this neglected aspect of international conflict **Rethinking Asia's Economic Miracle** Richard Stubbs, 2017-09-08 In the new edition of this important contribution to understanding both the Asian economic miracle and the 1997-8 crisis Richard Stubbs assesses the main explanations to date and updates the analysis to take account of globalization and the remarkable economic rise of China *A/AS Level English Literature A for AQA Student Book* Russell Carey, Anne Fairhall, Tom Rank, 2015-11-12 Created specifically for the AQA A/AS level English literature A specification for first teaching from 2015 this print student book is suitable for all abilities providing stretch opportunities for the more able and additional scaffolding for those who need it Helping bridge the gap between GCSE and A level the unique three part structure focuses on texts within a particular time period and supports students in interpreting texts and reflecting on how writers make meaning **Global Rules** James E. Cronin, 2014-10-28 Questions long perceived views of post World War II America and its position in the world especially after Vietnam The author details the challenges the economic transition of the 1970s and 1980s engendered as the US and Great Britain together actively pursued their shared ideal of an international assemblage of market based democratic states **American Soldiers** Peter S. Kindsvatter, 2003 Some warriors are drawn to the thrill of combat and find it the defining moment of their lives Others fall victim to fear exhaustion impaired reasoning and despair This book synthesizes the wartime experiences of American soldiers from the doughboys of World War I to the grunts of Vietnam Focusing on both soldiers and marines it draws on histories and memoirs oral histories psychological and sociological studies and even fiction to show that their experiences remain fundamentally the same regardless of the enemy terrain training or weaponry *Social Work with Children and Families* Steve Rogowski, 2016-04-20 Professional social work has changed considerably over the last forty years coinciding with the demise of the social

democratic consensus of the post war years and the emergence and now domination of neoliberalism Rather than the state through the government of the day ensuring citizens basic needs were met via the welfare state the belief in free market economics entails people having to be self reliant and self responsible This has involved social work with children and families moving from a helping and supportive role to one that is more authoritarian this often involving telling parents to change their behaviour and lifestyle or face the consequences This book outlines the development of social work with children and families over the period in question drawing on the author s unique practice experience and his extensive writings It charts the highs and lows of social work the latter including the dominance of managerialism which emphasises speedy completion of bureaucracy so as to ration resources and assess manage risk Despite this the argument is for a critical practice which addresses service users immediate needs while simultaneously aiming towards a more socially just and equal society This book is essential reading for everyone interested in social work including academics students practitioners and managers both in the UK and overseas Social care and allied professionals more generally will also find it insightful as will academics students and educators of social policy and related disciplines

Studies in Social Psychology in World War II ...: The American soldier: combat and its aftermath, by S. A. Stouffer and others ,1950 **Nazism, the Jews and American Zionism, 1933-1948** Aaron Berman,2018-02-05 A sophisticated analysis of how the Zionist understanding of the Holocaust shaped the development of American Jewish policies and political activism Aaron Berman takes a moderate and measured approach to one of the most emotional issues in American Jewish historiography namely the response of American Jews to Nazism and the extermination of European Jewry In remarkably large numbers American Jews joined the Zionist crusade to create a Jewish state that would finally end the problem of Jewish homelessness which they believed was the basic cause not only of the Holocaust but of all anti Semitism Though American Zionists could justly claim credit for the successful establishment of Israel in 1948 this triumph was not without cost Their insistence on including a demand for Jewish statehood in any proposal to aid European Jewry politicized the rescue issue and made it impossible to appeal for American aid on purely humanitarian grounds The American Zionist response to Nazism also shaped the political turmoil in the Middle East which followed Israel s creation Concerned primarily with providing a home for Jewish refugees and fearing British betrayal Zionists could not understand Arab protests in defense of their own national interests Instead they responded to the Arab revolt with armed force and sought to insure their own claim to Palestine Zionists came to link the Arabs with the Nazi and British forces that were opposed to the establishment of a Jewish state In the thinking of American Zionists the Arabs were steadily transformed from a people with whom an accommodation would have to be made into a mortal enemy to be defeated Aaron Berman does not apologize for American Jews but rather tries to understand the constraints within which they operated and what opportunities if any they had to respond to Hitler In surveying the latest scholarship and responding to charges against American Jewry Berman s arguments are reasoned and reasonable

Forensic Science in Contemporary

American Popular Culture Lindsay Steenberg, 2013-01-04 This book identifies traces and interrogates contemporary American culture's fascination with forensic science. It looks to the many different sites, genres, and media where the forensic has become a cultural commonplace. It turns firstly to the most visible spaces where forensic science has captured the collective imagination: crime films and television programs. In contemporary screen culture, crime is increasingly framed as an area of scientific inquiry and even more frequently as an area of concern for female experts. One of the central concerns of this book is the gendered nature of expert scientific knowledge as embodied by the ubiquitous character of the female investigator. Steenberg argues that our fascination with the forensic depends on our equal fascination with and suspicion of women's bodies with the bodies of the women investigating and with the bodies of the mostly female victims under investigation.

Incarceration and Regime Change Christian G. De Vito, Ralf Futselaar, Helen Grevers, 2016-10-01 Political instability is nearly always accompanied by fuller prisons, and this was particularly true during the long Second World War when military mobilization, social disorder, wrenching political changes, and shifting national boundaries swelled the ranks of the imprisoned and broadened the carceral reach of the state. This volume brings together theoretically sophisticated, empirically rich studies of key transitional moments that transformed the scope and nature of European prisons during and after the war. It depicts the complex interactions of both penal and administrative institutions with the men and women who experienced internment, imprisonment, and detention at a time when these categories were in perpetual flux.

Megargee, 2007-10-16 On June 22 1941 Hitler began what would be the most important campaign of the European theater The war against the Soviet Union would leave tens of millions of Soviet citizens dead and large parts of the country in ruins The death and destruction would result not just from military operations but also from the systematic killing and abuse that the German army police and SS directed against Jews Communists and ordinary citizens In War of Annihilation noted military historian Geoffrey P Megargee provides a clear concise history of the Germans opening campaign of conquest and genocide in 1941 By drawing on the best of military and Holocaust scholarship Megargee dispels the myths that have distorted the role of Germany's military leadership in both the military operations themselves and the unthinkable crimes that were part of them *Class and Power in the New Deal* G. Domhoff, Michael J. Webber, 2011-06-29 This book provides a new perspective on the origins of the three most important New Deal policies the Agricultural Adjustment Act the National Labor Relations Act and the Social Security Act while examining the strengths and weaknesses of historical institutionalism Marxism protest disruption theory and non Marxian class dominance theory *Nested Nationalism* Krista A. Goff, 2021-01-15 Nested Nationalism is a study of the politics and practices of managing national minority identifications

rights and communities in the Soviet Union and the personal and political consequences of such efforts. Titular nationalities that had republics named after them in the USSR were comparatively privileged within the boundaries of their republics but they still often chafed both at Moscow's influence over republican affairs and at broader Russian hegemony across the Soviet Union. Meanwhile, members of nontitular communities frequently complained that nationalist republican leaders sought to build titular nations on the back of minority assimilation and erasure. Drawing on extensive archival and oral history research conducted in Armenia, Azerbaijan, Dagestan, Georgia, and Moscow, Krista A. Goff argues that Soviet nationality policies produced recursive, nested relationships between majority and minority nationalisms and national identifications in the USSR. Goff pays particular attention to how these asymmetries of power played out in minority communities following them from Azerbaijan to Georgia, Dagestan, and Iran in pursuit of the national ideas, identifications, and histories that were layered across internal and international borders. What mechanisms supported cultural development and minority identifications in communities subjected to assimilationist politics? How did separatist movements coalesce among nontitular minority activists? And how does this historicization help us to understand the tenuous space occupied by minorities in nationalizing states across contemporary Eurasia? Ranging from the early days of Soviet power to post-Soviet ethnic conflicts, *Nested Nationalism* explains how Soviet-era experiences and policies continue to shape interethnic relationships and expectations today.
