Making History Jonathon S. Cullick,2000-04-01 From his first published book to his last works Robert Penn Warren wrote novels poetry biographies and essays based on the lives of American historical figures Even some of his critical texts take a biographical approach to their subjects In *Making History* the first comprehensive survey of Warren s biographical narratives Jonathan S Cullick tracks a clear development toward autobiography in Warren s career By applying narrative theory to that provocative trend he then makes an intriguing discovery Warren s discourse techniques dramatize his philosophy of history and ethics Cullick unearths what might be called the narrative syntax of Warren s historical vision in which genre becomes vital in the attempt to reconcile American past and present *Making History* considers all of Warren s major biographical narratives and their evolvment from detached reporting to doubtful self examination It offers a new reading of Warren s famed novel *All the King s Men* and close examination of several neglected texts including Warren s first book *John Brown The Making of a Martyr* his essay *The World of Daniel Boone* and two of his final works *Jefferson Davis Gets His Citizenship Back* and *Portrait of a Father* **Robert Penn Warren and American Idealism** John Burt,1988-01-01 A comprehensive study that explores the intricate relationship between Robert Penn Warren s literary works and the concept of American idealism The book delves into how Warren s writings reflect and critique the foundational ideals of America such as liberty democracy and individualism Burt examines Warren s engagement with American history and its ideals highlighting how Warren s characters often grapple with the tension between idealism and reality The book discusses Warren s belief that America s identity is rooted in an abstract idea rather than a shared ancestry or long history making the American experience unique and complex Through close readings of Warren s poetry fiction and historical writings Burt

illustrates how Warren's work addresses the moral and philosophical challenges of American idealism. The book also touches on Warren's views on the Civil War and its lasting impact on American society, emphasizing the ongoing struggle to reconcile the nation's ideals with its historical realities. Overall, Robert Penn Warren and American Idealism provides a nuanced and insightful analysis of Warren's literary contributions and their significance in understanding American identity and ideals.

The scope of the volume is unusually wide, covering such topics as Dante, the major novels of the 19th century, and stories and films of the 1990s. The book concludes with a lengthy bibliography of short stories and novels, films, and television programs, and nonfiction works that feature time travel or speculations about time. **Nineteenth Century and After**, 1907 **The Living Age**, 1908 The Melbourne Critical Review, 1961 **Works.
