McCoppin, 2016-10-25 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature a botanical hero one might say who begins the quest in a metaphorical seed like state then sprouts into a period of verdant strength But the hero must face a mythic underworld where he or she contends with mortality and sacrifice embracing death as a part of life For centuries humans have sought superiority over nature yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature Instead a cyclical promise of continuous life is realized in which no element fully disappears and the hero's message is not to dwell on death Lessons in Mythology Edmund P. Cueva, Deborah Beam Shelley, 2020-05-15 This volume offers eight approaches to myth its uses and purposes from viewing personal narrative as a form of healing myth to observing the atrocities committed daily arising from the most destructive

form of myth The authors of the eight chapters here note that myths have existed from the beginning of the human race in a myriad of forms and serving a myriad of functions Indeed the shared observation of these scholars is that humans have always been storytellers and always will be because myths are a part of the lives of every single person they are the story of us ,2018-11-30

The Apocalypse of Enoch and Bhu unda The Apocalypse of Enoch and Bhu unda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume of A Chronology of the Primeval Gods and the Western Sunrise ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hirany ksha and Hiranyakas ipu with secondary supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trisanku the Book of Genesis Senmut s Tomb and the myths of Prajapati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John s Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts

The Lessons of Nature in Mythology Rachel S. McCoppin,2015-10-29 This examination of myths from around the world focuses on the role nature plays within mythology Creation myths from myriad cultures recognized that life arose from natural elements inextricably connecting human life to the natural world Nature as portrayed in myth is unpredictable and destructive but also redemptive providing solace and wisdom Mythology relates the human life cycle to the seasons with spring summer fall and winter as metaphors for birth adulthood old age and death The author identifies divinities who were direct representations of natural phenomena The transition of mythic representations from the Paleolithic to Neolithic period is discussed

The New World Order Vikram S. Bobbili,2019-02-01 Human history has produced hundreds of epic writers poets novelists and historians to narrate what s occurred in the past 5 000 years of human beings cultural history There s abundant information about social habits religious beliefs and political and economic institutions established and perfected by the human species through the ages from the beginning days of human civilization to today In The New World Order

author Vikram S Bobbili analyzes this history concluding that differences among human races are superficial transitory in nature and subject to continuous change He asserts the oneness of human populations by examining the origin of the human species and his journey from the nuclear zone in Africa 1 5 million year ago his ordeals through different ages prehistoric the ancient the medieval and the modern times and his onward journey in the conquest of space Bobbili also explores the challenges humans have faced in the past the possible changes and problems he is apt to address in the future and the measures he must institute to ensure his continuous survival The New World Order emphasizes the need to invent new faiths and adopt new policies to see a near homogeneity in political economic religious and social institutions for achieving the ultimate goal establishment of great human society *Supreme God: Body, Will, Wisdom, and Work* , **Biblical Folklore** Daniel Vincent,2007 This book takes a new look at the Bible and its people from the dimension of its folk elements

Heroes and Heroines of Greece and Rome Brian Kinsey,2012-01-15 Explores well known heroic figures as well as the demigods nymphs sorceresses and other creatures that inhabited the mortal world and figured prominently in the myths of the heroes and heroines of Greece and Rome **Forgotten Worlds** Patrick Chouinard,2012-05-29 An examination of the mythological historical and archaeological evidence for lost civilizations throughout the world Explores unexplained mysteries such as the Caucasian mummies of China the pyramids of Caral in Peru and the genetically unique X woman of Siberia Examines evidence of lost ancient civilizations in Asia Europe and the Americas including extensive investigation into Atlantis Shows that Siberia and the Amazon may have been cradles of humanity before Africa Over and over again mainstream views of early history which state that the first civilizations arose around 3500 BCE are plagued by evidence of much older civilizations evidence ranging from artifacts and inexplicable remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt Viewing Atlantis and its many related myths as a metaphor for a long lost global civilization Patrick Chouinard explores the mythological cultural religious and archaeological evidence for many forgotten civilizations in Europe Asia and the Americas He addresses unexplained mysteries from around the world such as Caucasian mummies found in China the pyramids of Caral in Peru the hobbit remains on Flores Island the giant heads of Easter Island the lost legacy of Lemuria the ideology and occult mysticism behind Nazi theory and the genetically unique X woman of Siberia He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past Using recent archaeological findings he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa Sounding the call to continue searching ancient remote and formerly forbidden regions for lost cultures and genetic root races Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time By finding lost peoples and their forgotten worlds we can truly begin to understand the human race and learn from its long history **Skillbook for Speech Improvement** , Mythology David Adams Leeming,1998-05-28 What makes something mythic What do

mythic events and narratives have to do with us In *Mythology* David Leeming offers an unusual and effective approach to the subject of mythology by stressing universal themes through myths of many cultures This anthology collects a wide array of narrative texts from the Bible to English literature to interpretations by Joseph Campbell C G Jung and others which illustrate how myths serve whole societies in our universal search for meaning Leeming illustrates the various stages or rites of passage of the mythic universal hero from birth to childhood through trial and quest death descent rebirth and ascension The arrangement of texts by themes such as Childhood Initiation and Divine Signs The Descent to the Underworld and Resurrection and Rebirth strip mythic characters of their many national and cultural masks to reveal their archetypal aspects Real figures including Jesus and Mohammed are also included underlining the theory that myths are real and can be applied to real life This edition is updated to include additional heroine myths as well as Navajo Indonesian Indian Chinese and African tales

God David Adams Leeming, Jake Page, 1996 Illustrating their points with materials ranging from the prehistoric cave paintings to the mystic Jewish Kabbalah from the ancient Indians Vedas to tales of the North American Indians and other myths from around the world Leeming and Page reveals the changing mask of the male divine

The Friendly Guide to Mythology Nancy Hathaway, 2003-08-26 How was the world as we know it created What does it mean to be a hero Where do we go when we die Why are flood myths so ubiquitous Anyone who has pondered these and other questions about humanity's ancient beliefs will be fascinated by *The Friendly Guide to Mythology* Focusing on Greek and Roman mythology but including myths from Africa Asia Australia northern Europe and the Americas *The Friendly Guide to Mythology* is filled with compelling stories of gods goddesses mortals and monsters Beautifully ornamented with photos line drawings and quotes this entertaining guide also includes an A to Z listing of the world's most captivating goddesses profiles of famous writers collectors and interpreters of myths and engaging sidebars Featuring myths of love wisdom and adventure as well as those of violence jealousy and pure folly this accessible collection offers fascinating insight into the human psyche and brings our rich mythological heritage delightfully into focus

The Case for the Humanities Eric Touya de Marenne, 2016-12-01 Countering the perception that the humanities are unessential this volume contends that their well being has not only academic but also cultural political and existential ramifications Our technologically driven world possesses the means of its own destruction while economic and financial policies undermine the very existence of our democracy At the same time the postmodern and post human age fundamentally challenges our ability and legitimacy to conceive future ideals It is within this context that the humanities provide essential paths through which the teaching and knowledge of other academic fields such as STEM and economics must be re envisioned In short the humanities must be brought back to the center of academic life The political and pedagogical implications of this interdisciplinary study thus entail a renewed critique to rethink the relation between higher education society and the world at large politically economically scientifically and technologically and the importance of the humanities within it At the heart of this

reconsideration the humanities and humanity s fate and future become one
