From Berlin to Baghdad Hal Brands, 2021-12-14 On November 9 1989 a mob of jubilant Berliners dismantled the wall that had divided their city for nearly forty years this act of destruction anticipated the momentous demolition of the European communist system Within two years the nations of the former Eastern Bloc toppled their authoritarian regimes and the Soviet Union ceased to exist fading quietly into the shadows of twentieth century history and memory By the end of 1991 the United States and other Western nations celebrated the demise of their most feared enemy and reveled in the ideological vindication of capitalism and liberal democracy As author Hal Brands compellingly demonstrates however many American diplomats and politicians viewed the fall of the Soviet empire as a mixed blessing For more than four decades containment of communism provided the overriding goal of American foreign policy allowing generations of political leaders to build domestic consensus on this steady reliable foundation From Berlin to Baghdad incisively dissects the numerous unsuccessful attempts to devise a new grand foreign policy strategy that could match the moral clarity and political efficacy of containment Brands takes a fresh look at the key events and players in recent American history In the 1990s George H W Bush envisioned the United States as the guardian of a new world order and the Clinton administration sought the enlargement of America's political and economic influence However both presidents eventually came to accept albeit grudgingly that America's multifaceted roles responsibilities and objectives could not be reduced to a single fundamental principle During the early years of the George W Bush administration it appeared that the tragedies of 9 11 and the subsequent war on terror would provide the organizing principle lacking in U S foreign policy since the containment of communism became an outdated notion For a time most Americans were united in support of Bush's foreign policies and the military incursions into Afghanistan and Iraq As the swift invasions became grinding occupations however popular support for Bush's policies waned and the rubric of the war on terror lost much of its political and rhetorical cachet From Berlin to Baghdad charts the often onerous course of recent American foreign policy from the triumph of the fall of the Berlin Wall to the tragedies of 9 11 and beyond analyzing the nation's search for purpose in the face of the daunting complexities of the post Cold War world

Beyond Piggly Wiggly Lisa C. Tolbert, 2023-08 Patented in 1917 Piggly Wiggly was by far the most influential self service store of the early twentieth century Before 1940 it was the only self service chain with a national distribution network but it was neither the first nor the only version Beyond Piggly Wiggly reveals the

importance of Piggly Wiggly in the invention of self service and goes beyond the history of a single firm to explore the role of small business entrepreneurs who invented the first self service stores in a grassroots social process During the 1920s and 1930s a minority of enterprising grocers experimented with a wide variety of sometimes wacky design ideas for automating shopping They created specialized stores designed as enclosed retail systems that went far beyond open display techniques to construct unique physical and psychological advantages for automating salesmanship Beyond Piggly Wiggly offers the first perspective on the national scale of experimentation and connects the southern Jim Crow origins of self service to the national history of this mass retailing method Empirical analysis of store arrangements demonstrates how small stores that have previously been overlooked or undervalued as quaint anomalies were integral to the creation of supermarkets Ultimately self service was more than a business decision it was a fundamentally new social practice

It charts a century's meditations on war from painting and sculpture to photography, film, and poetry, and ultimately to silence as a language of memory in its own right. *A Bomber Pilot's Story* Robert P. Neilson, 2016-09-15. Flying a B-17 Flying Fortress with the Fifteenth Air Force out of Foggia, Italy, Lt. George H. Neilson describes the harrowing experiences of his twenty-eight combat missions, as well as the ups and downs of life in the US Army Air Corps from enlistment to discharge. 1943-45. Blending selections of his father's letters to home and memoirs he recorded a half-century later with documented background history, the younger Neilson tells the saga of the son of a Boston widow as he confronts the rigors of pilot officer training and combat service in the Mediterranean Theater of Operations during the final six months of World War II in Europe. George depicts the humorous and mundane sides of army life, as well as the terror-filled moments during bomb runs over targets in Austria, Germany, Czechoslovakia, Poland, Yugoslavia, and Austria, as anti-aircraft flak bursts battered the aircraft. Neilson's daily chronicles juxtapose moments when life and death hung in the balance, such as when he landed his crippled Fort in the Adriatic Sea, with the unexpected moments of splendor, such as when he dined in luxury on the Isle of Capri at a castle owned by the royal family of Italy. Flying in formation through clouds so thick that the plane thirty feet off his wing was invisible, George received the Distinguished Flying Cross for his ability as a skilled instrument pilot. He recounts youthful escapades on duty-free hours and the tales of life in Foggia's mud-bound tent city in the spur of Italy. It includes the stirring story of his visit to a field hospital where his brother, a captain in the infantry, was recovering from a bullet wound incurred in the fighting in the Apennine Mountain campaign. Finally, the story tells of World War II's fiery end and how he unknowingly worked on the secret research project to develop the atomic bomb in a lab at MIT before enlistment. For the student of history and aviation and its role in the Allied victory over Hitler's nefarious Reich, this microhistory will not disappoint. ***Beyond the Architect's Eye*** Mary N. Woods, 2013-12-11. Typical architectural photography freezes buildings

in an ideal moment and rarely captures what photographer Berenice Abbott called the medium's power to depict how the past jostled the present. In *Beyond the Architect's Eye*, Mary N. Woods expands on this range of images through a rich analysis that commingles art, amateur, and documentary photography genres usually not considered architectural but that often take the built environment as their subject. Woods explores how photographers used their built environment to capture the disparate American landscapes prior to World War II when urban and rural areas grew further apart in the face of skyscrapers, massive industrialization, and profound cultural shifts. Central to this study is the work of Alfred Stieglitz, Frances Benjamin Johnston, and Marion Post Wolcott, but Woods weaves a wider narrative that also includes Alice Austen, Gertrude Kasebier, Berenice Abbott, Margaret Bourke-White, Helen Levitt, Lisette Model, Louise Dahl Wolfe, Morgan and Marvin Smith, Eudora Welty, Samuel Gottscho, Walker Evans, Max Waldman, and others. In such disparate places as New York City, the rural South, and the burgeoning metropolis of Miami, these unconventional architectural photographers observed buildings as deeply connected to their context. Whereas Stieglitz captured New York as the quintessential modern urban landscape in the period, the South was its opposite, a land supposedly frozen in the past. Yet just as this myth of the Old South crystallized in photographs like Johnston's, a New South shaped by popular culture and modern industry arose. Miami embodied both of these visions. In Wolcott's work, agricultural fields where stoop labor persisted were juxtaposed with Art Deco hotels, a popular modernism of the machine age that remade Miami Beach into a miniaturized Manhattan on the beach. *Beyond the Architect's Eye* is a groundbreaking study that melds histories of American art, cities, and architecture with visual studies of landscape photography and cultural geography.

Beyond the Uprising, Cynthia Grant Bowman, 2008-03-12

Cynthia Grant Bowman is a professor of law at Cornell Law School in Ithaca, New York. She met the subject of this biography, Maria Chudzinski, while teaching at Northwestern University School of Law in Chicago, where Maria worked in the international section of the law library. Maria was born in Poland before the German invasion and the Second World War and joined the underground resistance, or Home Army, as a teenager. She fought during the 1944 Warsaw Uprising and was taken prisoner by the Germans when the city fell. In 1945, Maria moved to England, where she was a member of the Polish Air Force, ultimately settling in Chicago in 1952. She has been very active in the Polish American community in Chicago since that time. Intrigued by Maria's past, Professor Bowman asked her to tell her story. This book is the result.
