World War And Its Aftermath Form:

The First World War and Its Aftermath T. G Fraser, T.G. Fraser, 2015-09-15 Think of a map of World War I and chances are that map will be of Europe but the First World War had just as heavy an impact on the Middle East shaping the region into what we know it as today This book gathers together leading scholars in the field to examine this impact which is crucial to understanding the region's current problems and the rise of groups like the Islamic State In addition to recounting the crucial international politics that drew fierce lines in the sands of the Middle East a story of intrigue between the British Russians Ottomans North Africans Americans and others the contributors engage topics ranging from the war's effects on women the experience of the Kurds sectarianism the evolution of Islamism and the importance of prominent intellectuals like Ziya G kalp and Michel Aflaq They examine the dissolution of the Ottoman empire the exploitation of notions of Islamic unity and pan Arabism the influences of Woodrow Wilson and American ideals on Middle East leaders and likewise the influence of Vladimir Lenin's vision of a communist utopia Altogether they tell a story of promises made and promises broken of the struggle between self determination and international recognition of centuries old empires laying in ruin and of the political poker of the twentieth century that carved up the region separating communities into the artificial states we know today

American Literature in Transition, 1940-1950 Christopher Vials, 2017-12-28 In the aftermath of World War II the United States emerged as the dominant imperial power and in US popular memory the Second World War is remembered more vividly than the American Revolution American Literature in Transition 1940 1950 provides crucial contexts for interpreting the literature of this period Essays from scholars in literature history art history ethnic studies and American studies show how writers intervened in the global struggles of the decade the Second World War the Cold War and emerging movements over racial justice gender and sexuality labor and decolonization One recurrent motif is the centrality of the political impulse in art and culture Artists and writers participated widely in left and liberal social movements that fundamentally transformed the terms of social life in the twentieth century not by advocating specific legislation but by changing underlying cultural values This book addresses all the political impulses fueling art and literature at the time as well as the development of new forms and media from modernism and noir to radio and the paperback

After Modernism Pelagia Goulimari, 2023-03-31 While celebrating the centenary of the annus mirabilis of modernism we now encounter modernism after postmodernist poststructuralist postcolonial critical race feminist queer and trans writing and theory Out of the figures narratives and concepts they have developed a less universal more global decentred context specific interconnected modernism emerges In after modernism the meanings of after include periodisation homage and critique This book attends to neglected genealogies and intertexts high and low yet offering unacknowledged ontological epistemological conceptual and figurative resources How have artists of the Global South negotiated the hierarchical division of art capital into Western high art vs Global South culture Modernity's location has been the Western metropolis but other origin stories

have been centring slavery colonialism the nation state If modernity did not originate once why not multiple and still to come modernities Instead of a universalizable Western modernity vs local non Western traditions the contributors to this book discern multiple modern traditions Rather than reifying their heterogeneity the authors tunnel for lost transnational connections The nation state and the citizen have together defined Western modernity and the civilized Yet they have required the gender binary gender and sexual normativity assimilation exclusion forced migration partition segregation In between the public and the private humans and the natural world this book explores a multiple relational modern subjectivity collectivity and cosmic interconnectivity whose space is indivisible entangled ever folding and unfolding It was originally published as a special issue of the journal *Angelaki* *The Meddlers* Jamie Martin, 2022-06-14 While the birth of global economic governance is conventionally dated to the end of World War II Jamie Martin shows how its roots lie in World War I and its aftermath *The Meddlers* explores the intense political struggles about sovereignty and self governance provoked by the first attempts to govern global capitalism *The Welfare State and Its Aftermath* Shmuel Noah Eisenstadt, Ora Ahimeir, 1985-01-01 This book surveys the creation and existence of the welfare state in the developed economies analyzes ways in which problems have emerged and suggests possibilities for reform *A Fascist Century* R. Griffin, 2008-08-20 Ten essays on the nature of fascism by a leading scholar in the field focusing on how to understand and apply fascist ideology to various movements since the twentieth century Mussolini's prophesied fascist century Includes studies of fascism's attempted temporal revolution Nazism as extended case study and fascism's postwar evolution *Introduction to American Government* Frederic Austin Ogg, Perley Orman Ray, 1928 *The Constructive Mind* Brady Wagoner, 2017-03-02 The Constructive Mind is an integrative study of the psychologist Frederic Bartlett's 1886-1969 life work and legacy Bartlett is most famous for the idea that remembering is constructive and for the concept of schema for him constructive meant that human beings are future oriented and flexibly adaptive to new circumstances This book shows how his notion of construction is also central to understanding social psychology and cultural dynamics as well as other psychological processes such as perceiving imagining and thinking Wagoner contextualises the development of Bartlett's key ideas in relation to his predecessors and contemporaries Furthermore he applies Bartlett's constructive analysis of cultural transmission in order to chart how his ideas were appropriated and transformed by others that followed As such this book can also be read as a case study in the continuous reconstruction of ideas in science *The Assassination of Theo van Gogh* Ron Eyerman, 2008-08-28 Explores the motives mass media attention and narrative interpretation of the November 2004 murder of Dutch filmmaker Theo van Gogh **The Figurative Sculpture of Magdalena Abakanowicz** Joanna Inglot, 2004-03-30 Publisher Description
