*Women in Allied Naval Intelligence in the Second World War* Sarah-Louise Miller, 2024-10-17 Closely examining the work of women in the US and British naval services towards Allied naval intelligence during the Second World War this book focuses on their contributions during the Battle of the Atlantic and Pacific Naval War in order to shed new light on arenas of war from which women's narratives are almost always absent Including personal testimonies from those involved and surveying a wide cross section of different roles Sarah Louise Miller analyses the work of women at every level and rank in the US and British naval services and offers a much wider picture of how they assisted the Allied forces behind closed doors With exploration of the work of the WRNS and

WAVES on developing naval intelligence this book argues that they played a crucial role in the British and American SIGINT systems and within programs such as those at Bletchley Park and OP 20 G therefore directly impacting the organisation and outcome of Anglo American naval efforts Including analysis of the development of the modern kill chain Miller also re evaluates the effect of the combat taboo to demonstrate that the WRNS and WAVES were in fact at the cutting edge of the emergence of modern warfare

*Colonel House* Charles E. Neu,2014-11-28 A man who lived his life mostly in the shadows Edward M House is little known or remembered today yet he was one of the most influential figures of the Wilson presidency Wilson s chief political advisor House played a key role in international diplomacy and had a significant hand in crafting the Fourteen Points at the Paris Peace Conference Though the intimate friendship between the president and his advisor ultimately unraveled in the wake of these negotiations House s role in the Wilson administration had a lasting impact on 20th century international politics In this seminal biography Charles E Neu details the life of Colonel House a Texas landowner who rose to become one of the century s greatest political operators Ambitious and persuasive House worked largely behind the scenes developing ties of loyalty and using patronage to rally party workers behind his candidates In 1911 he met Woodrow Wilson and almost immediately the two formed what would become one of the most famous friendships in American political history House became a high level political intermediary in the Wilson administration proving particularly adept at managing the intangible realm of human relations After World War I erupted House realizing the complexity of the struggle and the dangers and opportunities it posed for the United States began traveling to and from Europe as the president s personal representative Eventually he helped Wilson recognize the need to devise a way to end the war that would place the United States at the center of a new world order In this balanced account Neu shows that while House was a resourceful and imaginative diplomat his analysis of wartime politics was erratic He relied too heavily on personal contacts often exaggerating his accomplishments and missing the larger historical forces that shaped the policies of the warring powers Ultimately as the Paris Peace Conference unfolded differences appeared between Wilson and his counselor Their divergent views on the negotiations led to a bitter split and after the president left

France in June of 1919 he would never see House again Despite this break Neu refutes the idea that Wilson and House were antagonists They shared the same beliefs and aspirations and were Neu shows part of an unusual partnership As an organizer tactician and confidant House helped to make possible Wilson s achievements and this impressive biography restores the enigmatic counselor to his place at the center of that presidency [40 Year-wise SBI/ IBPS/ RRB/ RBI Bank Clerk Solved Papers \(2015-21\) 5th Edition](#) Disha Experts,2020-04-06
