after his favorite college professor Dr Poulson inspired him The professor s passion and love for teaching prompted Michael to change his major and his life s direction But nothing prepared Michael for the reality of a Title One school Teaching is fun until a 7 year old is assaulting you or you re dodging furniture being thrown at you When you mix the craziness of a classroom with a marriage that was about to implode anyone might want to quit Smiling on the outside while feeling dead on the inside took this dedicated teacher to the breaking point Michael knew he must change what was inside him in his approach to life or nothing would change anywhere else So Michael took matters into his own hands to make four key paradigm shifts that helped him create a world of successful learning for his students and love within both the classroom and beyond The result has been a transformation that s taken Michael far beyond the classroom as he inspires thousands across the country Many agree teaching is an amazing profession but there s little discussion why so many teachers are leaving the profession Get Up or Give Up How I Almost Gave Up on Teaching shines a light into the internal battles and decisions educators face daily and how we must make a conscious decision either to give in or push through
