

Rosen And Wolff Political Thought

Mel Thompson

Rosen And Wolff Political Thought:

Fundamentals of Philosophy John Shand, 2003 A comprehensive and accessible introduction to the major topics in philosophy designed to be used as a companion to any undergraduate philosophy course German Political Thought and the Discourse of Platonism Paul Bishop, 2019-01-18 Taking Plato's allegory of the cave as its starting point this book demonstrates how later European thinkers can be read as a reaction and a response to key aspects of this allegory and its discourse of enchainment and liberation Focusing on key thinkers in the tradition of European and specifically German political thought including Kant Marx Hegel Nietzsche Heidegger and the Frankfurt School it relates them back to such foundational figures as Rousseau Aristotle and in particular Plato All these thinkers are considered in relation to key passages from their major works accompanied by an explanatory commentary which seeks to follow a conceptual and imagistic thread through the labyrinth of these complex yet fascinating texts This book will appeal in particular to scholars of political theory philosophy and German language and culture Development as Peace Wole Adegbile, 2023-08-04 The colonial definition of development has not served Africa well While Western assessments have generally revolved around a nation's GDP infrastructure and the like African cultures and the Yoruba people in particular have traditionally measured development in relation to the amount of peace experienced in a society and the wellbeing of its people In this study Dr Wole Adegbile examines the political theological and cultural contexts of contemporary development activity in Africa including the impact of modernization theory on African nation states He then draws on traditional Yoruba political thoughts and practices including the similarities between the Yoruba conception of a thriving community and the biblical principle of shalom to formulate a contextual political theology of development that would holistically address cultural identity and spiritual restoration Rooted in the intersection of Scripture and traditional African values this book suggests a way forward for African society its political leaders and the church Debates in Contemporary Political Philosophy Derek Matravers, Jonathan Pike, 2005-06-27 This textbook provides a comprehensive collection of influential essays that present a balanced survey of the major ideas that have come out of political philosophy in the last two decades **Idealism and the Abuse of Power** Zhuang Hui-yun, 2016-12-05 This book analyses the abuse of idealism with particular reference to China's Cultural Revolution The work examines abuse at two levels the state leaders' metaphysical vision as the interpretation of idealism at the top with state power and the psychological state of the masses at the bottom of society The concept of abuse itself is discussed with the author arguing that idealism is often used to justify abuse while many are all too willing to accept this as idealism itself On the other hand many dismiss the idealist vision because of the horrible consequences of the abuse For these reasons the book holds that abuse of idealism should not be confused with the original intent of idealism It is further argued that the masses often complement dictatorship due to a basic weakness of human nature Finally the book proposes that the concepts of human dignity and equal access to truth are prerequisites for the effective rule of law within

China **Multiculturalism, Identity and Rights** Bruce Haddock, Peter Sutch, 2004-06-02 This innovative volume brings a selection of leading political theorists to the debate on multiculturalism and political legitimacy and confronts issues including rights liberalism cultural pluralism and power relations *Citizenship, the Self and the Other* Malik Ajani, 2015-02-05 In today's world people speak more than 6000 languages and identify with thousands of cultural groups and a large variety of different religions Despite such a number of differences these and other features of human diversity are housed politically inside roughly 200 nation states Globally speaking a diverse citizenry is an unavoidable fact for most countries across the planet Additionally developments such as transnational migrations rising socio economic inequalities the War's on Terror and political movements based on absolutist ideologies continue to raise broader questions of justice governance equality quality of life and social cohesion As such recent decades have witnessed a revival of debates concerning what it means to be a citizen In response to such trends nations such as Australia Canada and Britain have committed themselves to teaching citizenship through their national curriculums Moreover all European Union member states have integrated some form of citizenship education into their primary and secondary curriculums Acknowledging such developments this book uses discussions with citizenship educators as a backdrop for a critical analysis of various conceptions of citizenship such as liberal social democratic civic republican cosmopolitan and multicultural citizenship It also analyses how these educators approach the contemporary reality of nation states which are richly composed of a diverse citizenry Given Britain's transformation into a multi ethnic and multi faith society this book develops as a case study an understanding of how religious and cultural difference can be approached What makes this work unique is that it gleans ideas and research from a wide field of international scholarship such as political science philosophy education and cultural studies A further unique aspect of the book is that it uses the q methodology a research method used to study people's viewpoints to reveal some shared perspectives on citizenship In doing so the path traced here leads to the discovery of spaces where citizenship educators despite their ethnic religious diversity display common ground on values beliefs and aims related to citizenship This book will prove to be a useful resource for academics educators and political leaders as well as interfaith and civil society professionals at large It is worth mentioning that even though this book has benefited from the generously contributed ideas of citizenship educators in England its scholarly research lessons arguments analysis and suggestions which focus on multi faith and multi ethnic societies will also be useful elsewhere **Understand Political Philosophy: Teach Yourself** Mel Thompson, 2010-05-28 Understand Political Philosophy is an in depth guide to the philosophers and political ideas who have shaped our society Quickly and easily get to grips with the key thinkers and theories from Aristotle to Wollstonecraft from capitalism to utilitarianism With exploration of contemporary issues and current debates this book will put political philosophy in the context of the world we live in today NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common

problems and quick tips for success based on the author's many years of experience TEST YOURSELF Tests in the book and online to keep track of your progress EXTEND YOUR KNOWLEDGE Extra online articles at www.teachyourself.com to give you a richer understanding of psychology FIVE THINGS TO REMEMBER Quick refreshers to help you remember the key facts TRY THIS Innovative exercises illustrate what you've learnt and how to use it Politics, Ethics and Social

Responsibility of Business: Murthy, 2009 Spread over 30 chapters in six units Politics Ethics and Social Responsibility of Business is a comprehensive guide to corporate social responsibility CSR It explains how the bases of CSR are politics and ethics without which the role of business in society cannot be understood Though designed for the students of B Com University of Delhi this book will be useful for all students of management as well as practicing managers and professionals

A Dialogical Concept of Minority Rights Hanna H. Wei, 2016-04-26 In *A Dialogical Concept of Minority Rights* Hanna H Wei demonstrates that a more plausible and realistic concept of minority rights should consist of not only rights against the state but also rights against the group She formulates and defends three separate but related rights to dialogue and thoroughly analyses how they may operate not only to maintain a healthy balance between the minorities need to be culturally distinct and their need to relate to and belong in the larger society but also that they address the generalisations and presuppositions on which the debate of multiculturalism has been based and constitute the first step of a possible solution to many of the theoretical and practical difficulties of minority protection *Cosmopolitanism and International Relations Theory* Richard Beardsworth, 2013-04-16 Globalization has been contested in recent times Among the critical perspectives is cosmopolitanism Yet with the exception of normative theory international relations as a field has ignored cosmopolitan thinking This book redresses this gap and develops a dialogue between cosmopolitanism and international relations The dialogue is structured around three debates between non universalist theories of international relations and contemporary cosmopolitan thought The theories chosen are realism post Marxism and postmodernism All three criticize liberalism in the international domain and therefore cosmopolitanism as an offshoot of liberalism In the light of each school's respective critique of universalism the book suggests both the importance and difficulty of the cosmopolitan perspective in the contemporary world Beardsworth emphasizes the need for global leadership at nation state level re embedding of the world economy a cosmopolitan politics of the lesser violence and cosmopolitan political judgement He also suggests research agendas to situate further contemporary cosmopolitanism in international relations theory This book will appeal to all students of political theory and international relations especially those who are seeking more articulation of the main issues between cosmopolitanism and its critics in international relations **Corruption in Commercial Enterprise** Liz

Campbell, Nicholas Lord, 2018-04-17 This edited collection analyses from multiple disciplinary perspectives the issue of corruption in commercial enterprise across different sectors and jurisdictions Corruption is commonly recognised as a major social bad and is seriously harmful to society in terms of the functioning and legitimacy of political economic systems and the

day to day lives of individuals There is nothing novel about bribes in brown envelopes and dubious backroom deals ostensibly to grease the wheels of business Corrupt practices like these go to the very heart of illicit transacting in both legal markets such as kickbacks to facilitate contracts in international commerce and illegal markets such as payoffs to public officials to turn a blind eye to cross border smuggling Aside from the apparent pervasiveness and longevity of corruption in commercial enterprise there is now renewed policy and operational attention on the phenomenon prompting and meriting deeper analysis Corruption in commercial enterprise encompassing behaviours often associated with corporate and white collar crime and corruption in criminal commercial enterprise where we see corruption central to organised crime activities are major public policy issues This collection gives us insight into their nature organisation and governance and how to respond most appropriately and effectively

Star Wars and Philosophy Kevin S. Decker, 2010-10 Sensed a disturbance in The Force lately This is what's been setting your midi-chlorians tingling Seventeen Jedi adepts got together to probe the deeper reaches of the Star Wars epic A hazardous quest philosophy is more risky than not letting a

Human Rights from a Third World Perspective José-Manuel Barreto, 2014-08-26 Globalization interdisciplinarity and the critique of the Eurocentric canon are transforming the theory and practice of human rights This collection takes up the point of view of the colonized in order to unsettle and supplement the conventional understanding of human rights Putting together insights coming from Decolonial Thinking the Third World Approach to International Law TWAIL Radical Black Theory and Subaltern Studies the authors construct a new history and theory of human rights and a more comprehensive understanding of international human rights law in the background of modern colonialism and the struggle for global justice An exercise of dialogical and interdisciplinary thinking this collection of articles by leading scholars puts into conversation important areas of research on human rights namely philosophy or theory of human rights history and constitutional and international law This book combines critical consciousness and moral sensibility and offers methods of interpretation or hermeneutical strategies to advance the project of decolonizing human rights a veritable tool box to create new Third World discourses of human rights

The Presidential Fringe Mark Stein, 2020-02-01 This offbeat slice of American history places the story of our great republic beneath an unexpected lens that of fringe candidates for president of the United States Mark Stein explores how their quest for our nation's highest office helped to amplify voices otherwise quashed during their day His careening tour through elections past includes the efforts of true pioneers in the quest for social equality in our country the first woman to run for president Victoria Woodhull in 1872 the first African American to run for president George E Taylor in 1904 and the first openly gay cross dressing candidate for president Joan Jett Blakk in 1992 But The Presidential Fringe also takes a look at those who would jest their way into the Oval Office from comedians such as Will Rogers and Gracie Allen to Pat Paulsen and Stephen Colbert Along the way Stein shows how even seemingly zany candidates such as Live Forever Jones Vegetarian Party candidate John Maxwell Flying Saucer Party candidate Gabriel Green or most recently Vermin Supreme

provide extraordinary insights of clarity into who we were when they ran for president and how we became who we are today Ultimately Stein s examination reveals that it was often precisely these fringe candidates who planted the seeds from which mainstream candidates later harvested genuine positive change Written in Stein s direct and witty style The Presidential Fringe surveys and portrays an American landscape rife with the unlikely unassuming unexpected and in a few cases unbalanced presidential hopefuls who in their own way have contributed to this nation s founding quest to form a more perfect Union

Discworld and Philosophy Nicolas Michaud,2016-08-09 In Discworld unlike our own frustrating Roundworld everything makes sense The world is held up by elephants standing on the back of a swimming turtle who knows where he s going the sun goes round the world every day so it doesn t have to be very hot and things always happen because someone intends them to happen Millions of fans are addicted to Pratchett s Discworld and the interest has only intensified since Pratchett s recent death and the release of his final Discworld novel The Shepherd s Crown in September 2015 The philosophical riches of Discworld are inexhaustible yet the brave explorers of Discworld and Philosophy cover a lot of ground From discussion of Moist von Lipwig s con artistry showing the essential con of the financial system to the examination of everyone s favorite Discworld character the murderous luggage to the lawless Mac Nac Feegles and what they tell us about civil government to the character Death as he appears in several Discworld novels Discworld and Philosophy gives us an in depth treatment of Pratchett s magical universe Other chapters look at the power of Discworld s witches the moral viewpoint of the golems how William de Worde s newspaper illuminates the issue of censorship how fate and luck interact to shape our lives and why the more simple and straightforward Discworld characters are so much better at seeing the truth than those with enormous intellects but little common sense

The Truth about Patriotism Steven Johnston,2007-08-29 Critique of the role of patriotism in democratic theory and its manifestation in popular culture as a mode of conceptualizing national cohesion

Hong Kong's Housing Policy Betty Yung,2008-07-01 This book examines housing policy in Hong Kong using a new and unique interdisciplinary approach combining the philosophical discussion on social justice with policy and housing studies It considers both Western and Chinese concepts of social justice and investigates the role of social justice in a public policy such as housing As a philosophical treatise on social administration the book will be of interest to philosophy public administration and housing studies academics and students of all countries Since Hong Kong represents a very special case with massive governmental intervention into the housing market housing professionals and policy makers will find the analysis of Hong Kong s housing policy useful

Knowledge Processing Creativity and Politics Showan Khurshid,2006-04 How is it possible to have political order and peace at all This is the key question we should consider This book on the bases of biology psychology and human experience argues that our salient characteristic is creativity the capacity to acquire transmit and apply knowledge Creativity is a precondition for morality the best morality therefore is what facilitates creativity best Agreement on morality is what resolves conflicts of interest and leads to the formation of political power and

thus order But how is agreement possible Liberal democracy and ideologies including religions evolved to deal with moral disagreement However they evolve develop and operate differently consequently they shape the world and political history differently Read on to see how **Between Anarchy and Society** William Bain, 2003-08-14 The international administration of troubled states whether in Bosnia Kosovo or East Timor has seen a return to the principle of trusteeship that is when some form of international supervision is required in a particular territory in order both to maintain order and to foster the norms and practices of fair self government This innovative study rescues the normative discourse of trusteeship from the obscurity into which it has fallen since decolonization It traces the development of trusteeship from its emergence out of debates concerning the misrule of the East India Company its internationalization in imperial Africa its institutionalization in the League of Nations mandates system and then in the United Nations trusteeship system and the destruction of its legitimacy by the ideas of self determination and human equality No other book brings this rich historical experience to bear on the dilemmas posed by the resurrection of trusteeship after the end of the Cold War It is with a view to contemporary world problems that this book explores the obligations that attach to preponderant power and the limits that should be observed in exercising that power for the sake of global good The book concludes by arguing that trusteeship remains fundamentally at odds with the ideas of human dignity and equality
